Budget Summary

Overview

In January 2016, Governor Brownback proposed a revised biennial budget for all state agencies for FY 2016 and FY 2017. This Comparison Report details the revised FY 2016 and FY 2017 budgets approved by the 2016 Legislature. The format of the report compares the budget recommended by Governor Brownback to the changes made by the Legislature through the appropriations process. The schedules at the end of the document provide detail by agency for the approved budgets for FY 2016 and FY 2017.

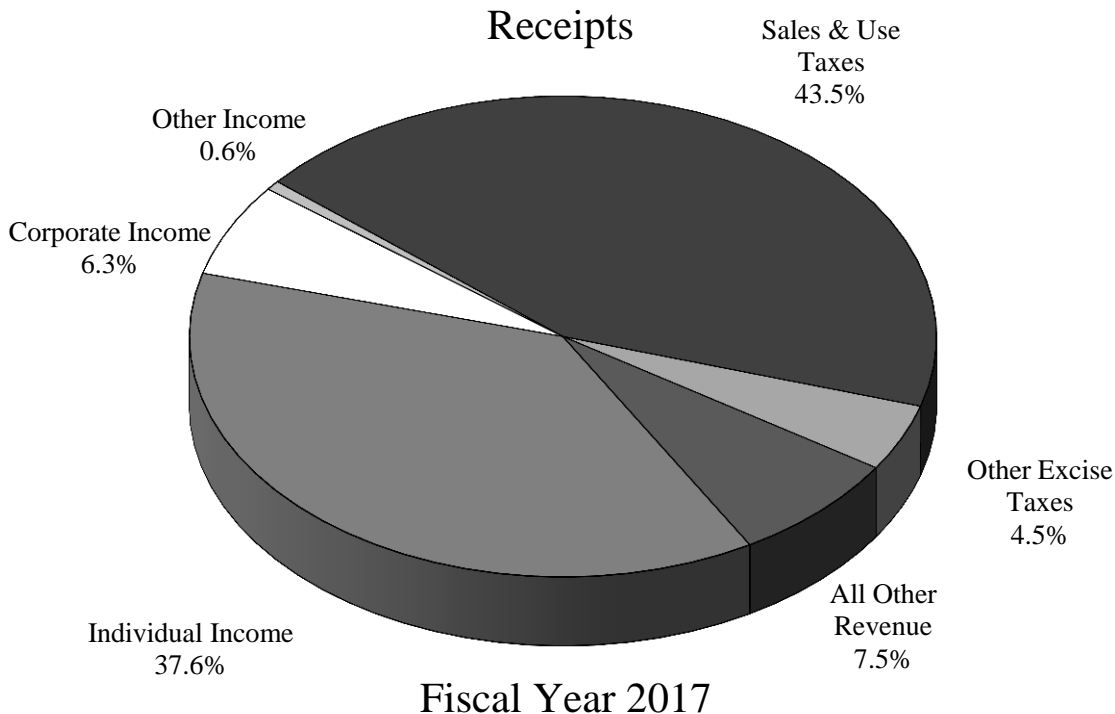

The table on this page lists summary numbers for the State General Fund and all funding sources for the two fiscal years affected by this year's budget process. The table and the pie charts on this and the next page summarize the various categories of revenues and expenditures from the State General Fund with a focus on the upcoming year, FY 2017.

	Budget Totals	
	Governor's Rec.	Approved
FY 2016:		
SGF	\$ 6,199,385,902	\$ 6,202,597,320
All Funds	15,524,152,525	15,527,563,943
FY 2017:		
SGF	\$ 6,306,030,075	\$ 6,270,395,474
All Funds	15,705,144,279	15,703,743,817

authority for FY 2016 and FY 2017 to allow State General Fund expenditure reductions and transfers from special revenue funds to the State General Fund whenever the estimated State General Fund ending balance is below \$100.0 million. The Governor enacted four allotments during FY 2016 which reduced executive branch State General Fund expenditures by \$111.4 million and transferred \$101.7 million from special revenue funds to the State General Fund. In addition, the Governor made an allotment for FY 2017 in conjunction with signing House Substitute for Senate Bill 249, the omnibus appropriation bill. The bill passed by the 2016 Legislature assumed actions would be taken by the

Selected Highlights of the Kansas Budget

Expanded Allotment Authority. House Substitute for Senate Bill 161 expanded the Governor's allotment

Governor to balance the FY 2017 budget. This allotment reduced executive branch expenditures by \$93.0 million and transferred \$4.0 million from special revenue funds to the State General Fund. The allotments represent a 4.0 percent reduction to most state agencies with exemptions for the Department of Corrections, Kansas Bureau of Investigation, Kansas Highway Patrol and the state hospitals. The Governor also excluded any reduction to K-12 education as directed by the Legislature.

KPERS Employer Contribution Reductions. The expanded allotment authority in House Substitute for Senate Bill 161 permits expenditure reductions achieved by reducing employer contributions for the Kansas Public Employee Retirement System (KPERS). Any reductions made to employer contributions must be paid back under the process specified in House Substitute for Senate Bill 249. Using this authority, a total of \$96.5 million in employer contributions were withheld from the KPERS retirement system in FY 2016. Of this amount, \$90.6 million was from the KPERS School group and an estimated \$5.9 million was from the KPERS State group.

KPERS Death & Disability Moratorium. Last year, the 2015 Legislature placed a moratorium on contributions to the Group Insurance Reserve Fund for the last seven pay periods in FY 2017. At that time, it was estimated that the moratorium would produce State General Fund savings of \$11.5 million. The 2016 Legislature extended the FY 2017 moratorium to all pay periods in the fiscal year increasing the savings by \$30.4 million. Altogether, the FY 2017 KPERS Death and Disability moratorium is expected to produce total savings of \$41.9 million from the State General Fund.

Kansas Biosciences Authority. The Legislature passed HB 2632, which allows the State Finance Council to sell the assets of the Kansas Bioscience Authority (KBA). Once the sale is approved, all proceeds of the KBA portfolio will be deposited in the State General Fund and long-term grant commitments made by the KBA will be transferred to the Department of Commerce. The omnibus appropriation bill appropriates \$6.6 million from the State General Fund for FY 2017 KBA grant commitments. This appropriation is dependent on the State Finance Council approving the sale of the KBA portfolio. Future long-term KBA grant commitments will be addressed in future budgets.

Special Legislative Session. A special session of the Kansas Legislature occurs when the Legislature is called to convene a time outside the regular legislative session, usually to address a particular topic or emergency. Governor Brownback called for a special session to convene on June 23, 2016 to address the Supreme Court opinion on school finance related to equity issues.

The Legislature enacted and the Governor signed House Substitute for HB 2001, which contained the following changes to school finance. The Legislature funded Supplemental General State Aid, also known as Local Option Budget (LOB) State Aid, under the formula that was in effect prior to the block grant. To fund LOB state aid at this higher level, the Legislature appropriated \$99.4 million from the State General Fund in FY 2017. To offset the additional funding required, the Legislature lapsed the funds it had appropriated during the regular 2016 Legislative Session for Equalization State Aid in FY 2017, which totaled \$61.8 million from the State General Fund. The Legislature then reduced funding from the block grant in FY 2017 by \$2.8 million from the State General Fund as a result of freezing the calculation of the virtual school weighting at \$5,000 per full-time student. The amount of funding available for Extraordinary Needs State Aid was also reduced by \$4.5 million to a total of \$13.0 million in FY 2017. The net effect of these changes was additional FY 2017 expenditures of \$30.3 million.

In order to mitigate the additional State General Fund expenditures the Legislature approved an additional transfer from KDOT of \$5.0 million. The Legislature also authorized the use of \$4.1 million from federal Temporary Assistance to Needy Families funds for the Pre-K Pilot program, instead of financing the program from the Children's Initiative Fund. The Legislature then transferred \$4.1 million from the Children's Initiative Fund to the State General Fund to help finance additional funds for LOB State Aid in FY 2017. In addition, if sufficient funds are not available in the LOB State Aid or the Capital Outlay State Aid appropriations to fully fund districts entitlements during FY 2017, amounts in the Extraordinary Needs State Aid can be utilized for these purposes. However, the Legislature provided that if the proceeds from the sale of the Kansas Bioscience Authority are less than \$38.0 million, then the difference between the amount of the proceeds and \$38.0 million can be reduced from

amounts available in the Extraordinary Needs State Aid and transferred to the State General Fund in FY 2017.

State General Fund

FY 2016. The Governor’s FY 2016 budget was built first using the Consensus Revenue Estimate of November 2015 with revenues attributable to changes in state law regarding tax rates and tax policy as well as transfers to the State General Fund, all detailed in the Governor’s budget. The November revenue estimate was later decreased \$93.9 million (1.5 percent) in April 2016. The estimate was adjusted again in June 2016 to account for enacted legislation, including the impact of House Substitute for SB 249, the omnibus budget bill, and SB 318 which abolishes the Kansas Electric Transmission Authority. Both of these bills increase transfers to the State General Fund in FY 2016.

Through the two budget bills passed in the 2016 Session and numerous allotments and amendments, the Governor’s original recommended State General Fund budget of \$6.3 billion was pared to \$6.2 billion. An agency by agency description of what the Legislature altered in the proposed budgets is detailed in the function summary sections of this report.

FY 2017. The November revenue estimate for FY 2017 was decreased \$134.7 million (2.1 percent) in April. The estimate was adjusted again in June 2016 to account for enacted legislation, including House Substitute for SB 161 and House Substitute for SB 249, the budget bills, HB 2632 which relates to the sale of the KBA portfolio, and HB 2456 and HB 2615 which increase agency earnings. Through the two budget bills passed in the 2016 Session and numerous allotments and amendments, the Governor’s original recommended State General Fund budget of \$6.4 billion was pared to \$6.3 billion.

All Funding Sources

The pie charts on the following page show how the revised approved FY 2016 and FY 2017 budgets from all funding sources is divided among the major categories of expenditure and across the functions of government.

The 2016 Legislature approved a FY 2016 budget totaling \$15.5 billion. This was a reduction of \$26.5 million from the Governor's recommendation. The

approved FY 2017 all funds budget is projected to increase by \$176.2 million, or 1.1 percent, compared to the new FY 2016 amount. The bulk of the increase can be seen in the Kansas Department of Education. The large swing in total funding for this agency relates to the deferral of KPERS payments in FY 2016, the addition of the Children's Cabinet Grants, and the school finance changes that were enacted in the 2016 Special Legislative Session. For additional detail on the all funds budget, refer to Schedule 2.1 in the back of this Report.

State Finances

State General Fund Balances

Ending Balance Requirements

KSA 75-6702 was enacted in 1990 that established minimum ending balances to ensure financial solvency and fiscal responsibility for the State of Kansas. The legislation requires an ending balance of at least 7.5 percent of total expenditures and demand transfers and requires that the Governor’s recommended budget as well as the budget approved by the Legislature for the coming year adhere to this balance. For ten years, from FY 2003 through FY 2012, the Legislature suspended the ending balance requirement for purposes of projecting the budget. For one year, the statutory ending balance requirements were sustained, for the FY 2013 budget. The threshold was suspended again in FY 2014 and will continue to be suspended through FY 2017.

The final approved budget left a projected ending balance of 0.6 percent for FY 2016 and 1.5 percent for FY 2017. A combination of adjustments to both revenues and expenditures account for the difference.

On the revenue side, the Consensus Revenue Estimating Group in April reduced the overall estimates for the two-year combined total by a total of \$228.6 million. However, total tax receipts were decreased by \$347.8 and other revenues were increased by \$119.2 million, largely as a result of increased net transfers from the enactment of House Substitute for SB 161 (the rescission bill), and the special allotment authority from 2015 Senate Substitute for HB 2135.

The Legislature subsequently enacted a tax bill, the omnibus appropriation bill, a special session education bill, and additional special allotment authority that increased revenues by a total of \$273.3 million over the two-year period, including a reduction \$1.1 million in total tax receipts and an increase of \$274.4 million in other revenues, which are largely transfers to the State General Fund. The transfers are detailed further in the State General Fund revenue section of this report. The Legislature also reduced State General Fund expenditures by \$32.4 million over the two-year period and granted additional special allotment authority to the Governor when the ending balance of

the State General Fund is estimated to be less than \$100.0 million in FY 2016 and FY 2017.

Cashflow

The budget is based on an estimate of annual receipts and total expenditures approved by the Legislature for a fiscal year. However, the pattern of receipts to the State General Fund within the fiscal year does not match the pattern of agency expenditures. The uneven nature of revenue and expenditure patterns requires that actions be taken to manage cashflow, such as adjusting the amount and timing of various large payments and transfers or issuing certificates of indebtedness. The Governor may also impose allotment reductions to ensure a positive cash balance in the State General Fund. A single certificate for FY 2016 in the amount of \$840.0 million was authorized at the start of the year and a certificate will again be needed for FY 2017. This will be the 18th year in a row that a certificate is issued within a fiscal year to maintain positive cashflow of the State General Fund.

Fiscal Year	Receipts	Expenditures	Balance	Percent
2008	5,693.4	6,101.8	526.6	8.6
2009	5,587.4	6,064.4	49.6	0.8
2010	5,191.3	5,268.0	(27.1)	(0.5)
2011	5,882.1	5,666.6	188.3	3.3

2013	6,341.1	6,134.8	709.3	11.6
2014	5,653.2	5,982.8	379.7	6.3
2015	5,928.8	6,237.0	71.5	1.1
2016	6,171.3	6,202.6	40.2	0.6
2017	6,326.0	6,270.4	95.8	1.5

Approved Budget

The table above depicts State General Fund receipts, expenditures, and year-end balances from FY 2008 through FY 2017. Significant variance in the ending balances from year to year is noted.

State General Fund Revenues

Estimates for the State General Fund are developed using a consensus process that involves the Division of the Budget, the Kansas Legislative Research Department, the Department of Revenue, and three consulting economists, one each from the University of Kansas, Kansas State University, and Wichita State University. This estimate is the base from which the Governor and the Legislature build the budget.

The Consensus Group met on April 20, 2016, to revise the FY 2016 and FY 2017 estimates, which were subsequently adjusted for legislative changes. This section presents the economic assumptions upon which the estimates are based. The next section covers the revenue projected by the consensus estimating process and the adjustments resulting from legislation that affects receipts. Annual and one-time transfers follow after that. The section concludes with a table that adds the consensus numbers and the adjustments to produce a new total revenue estimate.

Basic Economic Assumptions

The table below presents the key economic indicators used to estimate State General Fund revenues for FY 2016 and FY 2017. Most economic variables and indicators have been adjusted downward since the Consensus Group convened in November. While the U.S. and Kansas economies continue to grow,

uncertainty remains as a number of economic indicators are estimated to show only modest improvements over the next few years. Significant concerns exist for the economy as a whole relative to volatility in energy prices, consumer and business demand for products and services subject to sales taxation, lowered corporate profits, lower weekly wages, and lower sustained agricultural commodity prices.

The nominal Kansas Gross State Product is expected to grow by 3.4 percent in 2016 (the November estimate had been 4.2 percent) and 4.2 percent in 2017 (the November estimate had been 4.7 percent). Current forecasts call for the nominal U.S. Gross Domestic Product to grow by 3.5 percent in 2016 (the November estimate had been 4.9 percent) and by 4.5 percent in 2017 (the November estimate had been 5.2 percent). The consensus estimates for FY 2016 and FY 2017 are based on slower economic growth in the state relative to the national economy.

Kansas Personal Income. Kansas Personal Income (KPI) in 2015 increased by 2.5 percent, which improved slightly from the KPI forecast used in November that showed KPI increasing by 2.2 percent in 2015. The KPI estimate is currently expected to increase by 3.5 percent in 2016 and 4.2 percent in 2017. The new estimate for 2016 is slightly lower than the 3.9 percent reported in the November

Key Economic Indicators

	2016	2017
Consumer Price Index for All Urban Consumers	1.4 %	2.0 %
Real U.S. Gross Domestic Product	2.1	2.5
Nominal U.S. Gross Domestic Product	3.5	4.5
Nominal U.S. Personal Income	3.7	4.5
Corporate Profits before Taxes	--	4.0
Nominal Kansas Gross State Product	3.4	4.2
Nominal Kansas Personal Income:		
Dollars in Millions	\$ 138,266	\$ 144,074
<i>Percentage Change</i>	3.5 %	4.2 %
Nominal Kansas Disposable Income:		
Dollars in Millions	\$ 194,936	\$ 203,123
<i>Percentage Change</i>	3.5 %	4.2 %
Interest Rate for State General Fund (based on fiscal year)	0.39	0.45
Kansas Unemployment Rate	4.2	4.5

estimate, while the new estimate for 2017 is unchanged from the 4.2 reported in November. Current estimates are that overall U.S. Personal Income (USPI) growth will grow faster than KPI, with nominal USPI estimates of 3.7 percent in 2016 and 4.5 percent in 2017.

Employment. Data obtained from the Kansas Department of Labor indicate that employment levels for Kansas have begun to level off and the amount of private sector average weekly hours decreased by 1.1 hours, or 3.2 percent, below levels reported last year at this time. Sectors with the largest amount of job gains over the last year include leisure and hospitality; education and health services; and trade, transportation, and utilities. Construction; natural resources and mining; and manufacturing sectors had the largest job losses over the last year. Current estimates indicate that the overall Kansas unemployment rate, which was 4.2 percent in CY 2015, is expected to remain at 4.2 percent in CY 2016 and is expected to increase to 4.5 percent in CY 2017. The national unemployment rate is expected to remain above the Kansas rate, with the U.S. rate now expected to be 4.7 percent in CY 2016 and 4.6 percent in CY 2017.

Agriculture. The outlook for net farm income is an area of concern with lower sustained commodity and livestock prices estimated through 2017, with some relief starting in 2018. Wheat and corn continue to be the dominant crops in Kansas in terms of value and production. Milk production in Kansas continues to see significant growth. Land values leveled off in 2015 after experiencing 17.0 percent growth in 2014, which led the nation.

Oil & Gas. The average price per taxable barrel of Kansas crude oil is now estimated to be \$30 in FY 2016 (down slightly from the \$35 estimate used in November) and reflects the annualized effect of the recent decrease in world prices since the November estimate. The estimated average price of \$31 per barrel for FY 2017 (down significantly from the \$45 estimate used in November) takes into account current oil futures price expectations. A great deal of uncertainty remains about forecasting the price of this commodity; however, it appears that lower relative prices will continue in the foreseeable future.

Kansas gross oil production levels reached 49.4 million barrels in FY 2015 (compared with 47.4

million barrels in FY 2014). The current forecast of 44.0 million barrels for FY 2016 is significantly down from the 47.0 million barrels that was estimated in November. It is estimated that Kansas gross oil production levels will continue to decline as production is estimated to decrease to 41.0 million barrels in FY 2017 (down from the 46.0 million barrels estimated in November). Kansas production declines are reflective of decreases in drilling rig counts for new oil exploration and large storage inventories. Of all Kansas oil produced, 42.0 percent is predicted to not be subject to severance taxation because of various exemptions in state law in both FY 2016 and FY 2017.

The price of natural gas is expected to average \$1.80 per thousand cubic feet (Mcf) for FY 2016 before increasing to \$2.10 per Mcf for FY 2017, based on an industry source's analysis of futures markets. The new price estimates are significantly lower than used in November when the price was estimated to be \$2.05 in FY 2016 and \$2.50 in FY 2017. Factors considered in revising the price forecasts included large storage levels for gas, the relationship between crude oil and gas prices, industrial demand, and the continued impact of enhanced production from shale formations elsewhere in the United States.

Kansas natural gas production in FY 2015 of 297.3 million Mcf represented a significant decrease from the modern era peak of 730.0 million Mcf in FY 1996 (largely as a result of depleting reserves in the Hugoton Field). Production is estimated to continue to decrease in the future and is expected to be 260.0 million Mcf in FY 2016 and 250.0 million Mcf in FY 2017. Approximately 40.0 percent of natural gas produced is expected to be exempt from severance taxation in FY 2016.

Inflation. The Consumer Price Index for All Urban Consumers (CPI-U) increased by 0.1 percent in 2015, which is unchanged from the amount estimated in November. The current forecasts of 1.4 percent in 2016 and 2.0 percent in 2017 indicate that inflation will likely continue to be held in check by Federal Reserve monetary policy. Since the forecast reported in November, lower oil and gas prices have decreased inflation expectations in 2016 when 1.8 percent was estimated. The forecast reported in November for 2017 have not significantly changed from the 2.1 percent that was estimated.

Interest Rates. The Pooled Money Investment Board is authorized to make investments in U.S. Treasury and agency securities; highly rated commercial paper and corporate bonds; as well as repurchase agreements and certificates of deposit at Kansas banks. In FY 2015, the state earned 0.19 percent on its SGF portfolio (compared with a 0.14 percent rate in FY 2014). The average rate of return forecasted for FY 2016 is now estimated to be 0.39 percent (up slightly from the 0.28 percent estimated in November). For FY 2017, the average rate of return is now estimated to be 0.45 percent (up slightly from the 0.30 percent estimated in November).

Low balances and historically low interest rates have required the PMIB to maintain a highly liquid portfolio, which reduces the amount of return available to the pool. SGF interest earnings are estimated to be \$26.3 million in FY 2016 (an increase of \$5.3 million from November) and \$13.4 million in FY 2017 (an increase of \$4.2 million from November). The FY 2016 estimate includes almost \$11.0 million in realized capital gains from the State Treasurer's Unclaimed Property Portfolio that was deposited in the State General Fund in July 2015.

Delinquent Debt Collection. In order to improve delinquent tax collections, the Legislature approved the Governor's recommendation to add 48.00 additional FTE positions to the Department Revenue, with 21.00 to be added in FY 2016 and 27.00 more in FY 2017. The enhanced debt collections effort by the Department of Revenue was recommended by the Alvarez and Marsal Statewide Efficiency Review and funding was included in the rescission bill. The additional staff is estimated to bring in \$7.5 million worth of unpaid taxes in FY 2016, primarily from the individual income tax. Overall, the estimate for FY 2017 includes a total of \$41.7 million in additional tax receipts, including \$15.7 million from the retail sales tax, \$13.5 million from the individual income tax, \$6.0 million from the corporation income tax, \$4.3 million from the compensating use tax, and \$2.2 million from the liquor enforcement tax.

Village West STAR Bond District. According to the Department of Revenue and the Unified Government of Wyandotte County, the Village West Star Bonds are estimated to be paid off in December 2016 that will allow approximately six-months of retail sales and compensating use tax revenue for the state. Paying off

the STAR bonds early is estimated to generate an additional \$20.4 million in revenues in FY 2017, including \$19.7 million (\$10.0 million was included in the November CRE and an additional \$9.7 million was added in the April CRE) from the retail sales tax and \$700,000 (added in the April CRE) from the compensating use tax.

Special Allotment Authority. House Sub. for SB 161 and House Sub. for SB 249 grant special allotment authority to the executive branch in both FY 2016 and FY 2017 if the unencumbered ending balance of the State General Fund is projected to be less than \$100.0 million. In addition to lapsing State General Fund appropriations, the special allotment authority also allows special revenue fund transfers into the State General Fund that would affect net transfers. Pursuant to this authority granted by the Legislature, the executive branch has authorized transfers to the State General Fund in FY 2016 of \$90.0 million from the State Highway Fund (SHF), approximately \$6.6 million from the Expanded Lottery Act Revenues Fund for delayed employer contributions to the Kansas Public Employee Retirement System (KPERS), and \$680,500 from the Children's Initiatives Fund. For FY 2017, the proposed changes announced thus far include a transfer of \$115.0 million from the SHF, \$3.4 million transfer from the Children's Initiatives Fund, and a transfer of \$661,661 from the Economic Development Initiatives Fund.

Consensus Revenue Estimates

For the April revision, each revenue source was evaluated independently, taking into consideration the most recent economic indicators and tax collection information from the Department of Revenue, the Insurance Department, and year-to-date receipts. The consensus estimates are then adjusted to reflect legislation that was enacted after the April revision that has a fiscal effect on State General Fund receipts.

FY 2016. The revised FY 2016 estimate of State General Fund receipts is \$6.2 billion, an increase of \$4.4 million from the estimate made in November. The estimate for total taxes was decreased by \$177.1 million, while the estimate of other revenue was increased by \$181.5 million. The revised estimate is \$241.5 million, or 4.1 percent, above actual FY 2015 receipts.

The individual income tax was reduced by \$125.0 million based on lower withholding growth, weaker employment growth, and higher withholding refunds from the Promoting Employment Across Kansas (PEAK) program than were estimated in November. There were a number of adjustments that were included in the newly revised individual income tax estimate. Approximately \$25.0 million in refunds from Kansas residents that worked in Kansas City, Missouri are now allowed to use the 1.0 percent Kansas City (Missouri) earnings tax as a credit against their Kansas tax liability. The refund liability is primarily isolated to tax year 2012 before Kansas reduced income tax rates below Missouri. Taxpayers had until April 18, 2016, to amend their tax year 2012 tax returns to receive this refund. The individual income tax estimate includes approximately \$7.5 million in additional receipts from enhanced debt collections efforts by the Department of Revenue and an additional \$3.5 million from suspending the income tax withholding transfer to the Job Creation Program Fund at the Department of Commerce that was included in the rescission bill.

The retail sales tax estimate was decreased by \$30.0 million based on lower than expected growth in consumer spending. The corporation income tax was reduced by \$20.0 million to reflect lower estimated corporate profits than were estimated in November. The severance tax estimate was decreased by a net total of \$15.0 million (\$8.9 million decrease attributable to oil and \$6.1 million decrease attributable to gas). The estimate was decreased largely as a result of substantially lower prices and lower estimated production for both oil and gas than had been assumed in the fall. Other receipt estimates that were decreased by at least \$1.0 million include the financial institutions privilege tax (decreased by \$8.0 million), agency earnings (decreased by \$6.7 million), and cigarette tax (decreased by \$2.0 million).

The estimate for net transfers was increased by \$182.9 million, including \$84.6 million in various transfer adjustments included in the April CRE, an additional \$77.6 million in transfer adjustments included in the legislatively approved budget, and \$20.7 million in additional special allotment authority transfers. The net transfer adjustments include \$140.0 million in additional transfers from the State Highway Fund; \$9.7 million from the Children's Initiative Fund encumbrance change; \$6.6 million in delayed

employer contributions to KPERS; \$6.0 million from the Kansas Bioscience Authority; \$5.7 million from the IT savings certification; \$4.7 million from the Economic Development Initiatives Fund; \$3.7 million from the Kansas Partnership Fund at the Department of Commerce; \$3.5 million from the Kansas Qualified Agriculture Ethyl Alcohol Producer Incentive Fund at the Department of Revenue; and approximately \$3.0 million in various other net transfers.

The insurance premiums tax was increased by \$11.5 million based largely on overall strong growth for the insurance industry than were estimated in November. Other receipt estimates that were increased by at least \$1.0 million include compensating use tax (increased by \$10.0 million), SGF interest earnings (increased by \$5.3 million), and motor carrier property tax/fee (increased by \$1.0 million).

FY 2017. State General Fund receipts are estimated to be \$6.3 billion in FY 2017, an increase of \$40.3 million relative to the November estimate. The new FY 2017 figure is \$155.7 million or 2.5 percent above the newly revised FY 2016 estimate. The estimate of total taxes was decreased by \$171.8 million, while the estimate of other revenue was increased by \$212.1 million. Total taxes in FY 2017 are now projected to increase by 3.0 percent above the newly revised FY 2016 amount.

The individual income tax was reduced by \$108.0 million based on the continuation of lower withholding growth and weaker employment growth. The individual income tax estimate also includes approximately \$13.5 million in additional receipts from enhanced debt collections efforts by the Department of Revenue and \$3.5 million from eliminating the income tax withholding transfer to the Job Creation Program Fund at the Department of Commerce.

The retail sales tax estimate was decreased by \$30.1 million based on lower than expected growth in consumer spending. The retail sales tax estimate is now \$79.9 million, or 3.5 percent, above the revised FY 2016 estimate. The growth in the retail sales tax estimate in FY 2017 compared to the revised FY 2016 estimates was influenced by a number of factors. The retail sales tax estimate includes \$19.7 million (\$10.0 million was included in the November CRE and an additional \$9.7 million was added in the April CRE)

from paying off the Village West Star Bonds in December 2016 that will allow approximately six-months of retail sales tax revenue for the state. Enhanced debt collections efforts by the Department of Revenue is estimated to generate an additional \$15.7 million. The one-month lag from the July 1, 2015 retail sales tax rate increase that was included in the FY 2016 estimate is not included in the FY 2017 estimate will generate approximately \$12.0 million in additional revenue. The Legislature also passed House Sub. for SB 149, which contains various tax provisions, including a sales tax exemption for certain purchases by or on behalf of the Gove County Healthcare Endowment Foundation that reduces retail sales tax receipts by approximately \$88,000. Factoring these adjustments and the rate of inflation, the change in FY 2017 retail sales tax estimate would be negligible compared to the revised FY 2016 estimate.

The severance tax estimate was decreased by a net total of \$24.3 million (\$18.4 million decrease attributable to oil and \$5.9 million decrease attributable to gas). The estimate was decreased largely as a result of substantially lower prices and lower estimated production for both oil and gas than had been assumed in the fall. Other receipt estimates that were decreased by at least \$1.0 million include the corporation income tax (decreased by \$24.0 million), agency earnings (decreased by \$7.2 million), financial institutions privilege tax (decreased by \$7.0 million), and cigarette tax (decreased by \$2.0 million).

The estimate for net transfers was increased by \$215.1 million, including \$39.0 million in various transfer

adjustments included in the April CRE, an additional \$154.0 million in transfer adjustments included in the legislatively approved budget, and \$22.1 million in transfer adjustments from the special legislative session. The State Treasurer will transfer \$4.8 million from the State General Fund for the Learjet Incentive and the PMIB will transfer an additional \$2.9 million from the State General Fund for higher interest earnings on idle funds that are retained by certain state agencies. Other net transfer adjustments include \$145.0 million in additional transfers from the State Highway Fund; \$47.9 from the estimated sale of the assets of the Kansas Bioscience Authority; \$8.8 million from the Children's Initiative Fund; \$7.2 million from the Kansas Endowment for Youth Fund; \$7.0 million from the Kansas Bioscience Authority; \$3.5 million from the Kansas Qualified Agriculture Ethyl Alcohol Producer Incentive Fund at the Department of Revenue; \$2.9 million from the Economic Development Initiatives Fund; and approximately \$500,000 in various other net transfers.

The insurance premiums tax was increased by \$10.9 million based largely on overall stronger growth for the insurance industry than was estimated in November. The compensating use tax was increased by \$10.0 million and includes an additional \$700,000 from six months of revenue from the Village West STAR Bond District. Other receipt estimates that were increased by at least \$1.0 million include SGF interest earnings (increased by \$4.2 million), liquor enforcement tax (increased by \$2.0 million), and motor carrier property tax/fee (increased by \$1.5 million).

Budget Issues

Children's Initiatives Fund

KEY Fund Summary

All proceeds from the national settlement with tobacco companies are deposited in the Kansas Endowment for Youth (KEY) Fund. Each year a transfer is made from the KEY Fund to the Children's Initiatives Fund (CIF) to finance programs related to children's issues. The Governor's recommendation and the final approved revenues, transfers and expenditures from the KEY Fund match the original approved amounts from the 2015 Legislative Session. For FY 2017 the Governor recommended a transfer of \$57.3 million from the KEY Fund to the SGF and no transfer to the CIF. In order to provide a higher level of scrutiny and accountability, as well as improved coordination with other early childhood programs, the Governor's recommendation replaced all funding from the CIF with State General Fund dollars. The transfers from the KEY Fund to the Attorney General and the Judicial

Branch were recommended to continue as approved, as well as the expenditures from the KEY Fund for Children's Cabinet administrative expenditures. The Legislature rejected this recommendation and approved a transfer of \$42.0 million from the KEY Fund to the CIF Fund. The table below compares the Governor's recommendation and the approved amounts for KEY Fund transfers and expenditures.

CIF Summary

The table below compares the Governor's recommendation with the budget approved by the Legislature for the Children's Initiatives Fund. In order to provide a higher level of scrutiny and accountability, as well as improved coordination with other early childhood programs, the Governor recommended the

replacement of CIF funding with SGF. The Legislature did not concur and approved a transfer of \$42.0 million from the KEY Fund and to the CIF and appropriated the full amount to the CIF Grants account under the control of the Children's Cabinet. However, the Governor will make the final determination concerning the allocation of funding in the CIF Grants account. The Governor also recommended that beginning July 1, 2016, the Children's Cabinet would reside within the Kansas Department of Education (KSDE) instead of the Department for Children and Families. This new structure would allow for resource sharing and greater coordination of early childhood programs. The Legislature included bill language that allowed the Children's Cabinet to choose its fiscal agent, and the Cabinet has certified its choice of KSDE beginning July 1, 2016.

Because the budget passed by the Legislature assumed allotments to balance the budget, on May 18, 2016, the Governor announced an allotment plan for FY 2017. A reduction of \$3.4 million from the CIF Grants account was included in that allotment. This reduction will be spread across CIF programs that do not have maintenance of effort requirements and would not lose other funding if CIF funding is reduced.

Approved Expenditures

For FY 2016, the Legislature concurred with the Governor's original recommendations for CIF programs. Because actual FY 2016 expenditures for the Kansas Reading Success Program were under budget, on June 30, 2016 an allotment reduced expenditures from the CIF for that program by \$680,500. The program is fully funded through the State General Fund in FY 2017. For FY 2017, the Legislature concurred with the Governor's recommendation to finance the Parent Education Program in KSDE with \$7.2 million through the Temporary Assistance for Needy Families federal program. The Legislature appropriated \$42.0 million from the Children's Initiatives Fund to the new CIF Grants account. In the 2016 Special Legislative Session the Legislature approved an FY 2017 transfer of \$4.1 million from the Children's Initiatives Fund to the State General Fund. The funding was reduced from the Department of Education's Pre-Kindergarten Program, but same amount was added from the Temporary Assistance for Needy Families federal program. A final approved amount of \$34.5 million will be distributed to CIF programs in FY 2017 by the Children's Cabinet with the final approval of the Governor.

Expanded Lottery Act Revenues Fund

Fund Summary

The Expanded Lottery Act Revenues Fund (ELARF) is capitalized through transfers from the Kansas Lottery from initial privilege fees collected from gaming facility managers and from net gaming revenue collected from state-owned destination casinos and electronic gaming machines at parimutuel racetracks authorized by the Kansas Expanded Lottery Act. The first state-owned destination casino opened in Ford County in December 2009. The casino in Sumner County opened in December 2011 and the Wyandotte County casino opened in February 2012. The final state-owned casino authorized by the Kansas Expanded Lottery Act is expected to open in the Southeast Kansas gaming zone in FY 2017.

Currently, no racetrack gaming facility manager has entered into a contract with the Kansas Lottery to place electronic gaming machines at a parimutuel racetrack and it is not expected that any parimutuel racetrack will reopen with electronic gaming machines in the foreseeable future.

A meeting on expanded gaming revenue was held in April 2016 to revise the previous estimates for FY 2016 and FY 2017. The distribution of gaming facility revenue is based on a formula detailed in the Kansas Expanded Lottery Act and by the contract between each individual gaming facility manager and the Kansas Lottery.

Generally, the ELARF will receive 22.0 percent of the revenue, the Problem Gambling and Addictions Grant Fund (PGAGF) will receive 2.0 percent, cities and counties where gaming facilities are located will receive a total of 3.0 percent, and gaming facility

managers will receive 73.0 percent. However, revenue distributions will vary by each gaming facility based on each contract that provides additional revenues to the ELARF out of the gaming facility manager’s share of revenue when certain revenue thresholds are reached. The table below details how this revenue will be distributed.

The estimate for gaming facility revenue generated from the state’s three gaming facilities in FY 2016 was increased from \$368.7 million to \$370.5 million from the estimate made in October 2015. Net gaming revenue is estimated to be distributed as follows: the ELARF is estimated to receive \$81.6 million, the PGAGF will receive \$7.4 million, cities and counties where gaming facilities are located will receive a total of \$11.1 million, and gaming facility managers will receive \$270.3 million. The ELARF will also receive a one-time \$5.5 million privilege fee in FY 2016 from the gaming facility manager in the Southeast Kansas Gaming Zone.

For FY 2017, total gaming facility revenues are estimated at \$386.9 million, which is a decrease of \$7.8 million from the estimate made in October 2015. The estimate was decreased primarily from reducing the amount of gaming facility revenue that is estimated to be generated from the new gaming facility in the Southeast Kansas gaming zone from \$19.2 million to \$9.6 million after litigation delayed initial construction of the new facility. Net gaming revenue is estimated to be distributed as follows: the ELARF is estimated to receive \$85.3 million, the PGAGF will receive an estimated \$7.7 million, cities and counties where gaming facilities are located will receive a total of \$11.6 million, and gaming facility managers are estimated to receive \$282.3 million.

	Gov. Rec. FY 2016	Approved FY 2016	Gov. Rec. FY 2017	Approved FY 2017
Expanded Lottery Act Revenues Fund	81,226,000	81,636,000	87,000,000	85,298,000
Problem Gambling & Addictions Grant Fund	7,374,000	7,410,000	7,894,000	7,738,000
Cities & Counties	11,061,000	11,115,000	11,841,000	11,607,000
Gaming Facility Managers	269,039,000	270,339,000	287,965,000	282,257,000
Total	\$ 368,700,000	\$ 370,500,000	\$ 394,700,000	\$ 386,900,000

Approved Expenditures

The Legislature approved language in SB 249 that allows the Budget Director to delay KPERS employer contributions. It is estimated that approximately \$96.5 million in KPERS employer contributions will be delayed in FY 2016, including \$6.6 million from the ELARF from the Department of Education's KPERS School Employer Contribution. The delayed KPERS ELARF expenditures will be lapsed and transferred to the State General Fund in FY 2016 and will be paid back at a future date. This was the only change to ELARF expenditures for FY 2016 and no expenditure adjustments were made for FY 2017.

Language in the appropriations bill allows the State General Fund to transfer to the ELARF if revenues at the end of the fiscal year are not sufficient to make all approved expenditures and transfers for that fiscal year. Appropriation language also allows that any additional revenues in the ELARF to be transferred to the State General Fund at the end of the fiscal year. With current projected revenues and approved expenditures and transfers, the ELARF is estimated to transfer \$4.3 million to the State General Fund in FY 2016 and \$3.2 million in FY 2017. The Legislature approved \$87.1 million in ELARF expenditures and transfers for FY 2016 and \$85.3 million for FY 2017. The ending balance in the ELARF is estimated to be zero at the end of both FY 2016 and FY 2017.

Economic Development Initiatives Fund

Lottery Revenues

The State Gaming Revenues Fund (SGRF) receives transfers from receipts generated by the Kansas Lottery from the sale of lottery tickets. All receipts to the SGRF are then transferred to various funds in accordance with a statutory formula. By statute, any receipts to the SGRF in excess of \$50.0 million are transferred to the State General Fund at the end of the year.

The Legislature approved the Governor’s budget amendment to increase the FY 2016 SGRF transfer by \$2.0 million, from \$76.2 million to \$78.2 million. The higher transfer is directly related to the large Powerball jackpot that substantially increased lottery ticket sales in early January. The Legislature approved the Governor’s recommendation to transfer \$77.3 million to the SGRF in FY 2017. The State General Fund is estimated to receive \$28.2 million in FY 2016 and \$27.3 million in FY 2017. Approved transfers are presented in the table in the next column.

EDIF Summary

The Economic Development Initiatives Fund (EDIF) draws revenues from the State Gaming Revenues Fund. State law provides that after \$80,000 is transferred to the Problem Gambling and Addictions

	Gov. Rec. FY 2016	Approv. FY 2016	Gov. Rec. FY 2017	Approv. FY 2017
Transfers Out:				
EDIF	42,432	42,432	42,432	42,432
JDFP	2,496	2,496	2,496	2,496
CIBF	4,992	4,992	4,992	4,992
PGAGF	80	80	80	80
Total by Formula	\$50,000	\$50,000	\$50,000	\$50,000
SGF	26,200	28,200	27,300	27,300
Total Transfers	\$76,200	\$78,200	\$77,300	\$77,300

Grant Fund, then the EDIF will receive 85.0 percent of all remaining revenues from the State Gaming Revenues Fund to a maximum of \$42.4 million.

The Legislature approved the Governor’s budget amendment that lapsed EDIF expenditures totaling \$128,547 in FY 2016, including \$127,547 from the Department of Commerce and \$1,000 from the Department of Wildlife, Parks & Tourism. The lapsed EDIF funding was transferred to the State General Fund and represents part of the overall FY 2016 IT Savings Certification from cabinet agencies for information technology projects that will no longer be needed. This was the only adjustment that was made to the FY 2016 EDIF budget. The Legislature concurred with the Governor’s EDIF revenue estimates for FY 2016, including EDIF transfers of \$27.8 million to the State General Fund and \$2.0 million to the State Housing Trust Fund.

	Gov. Rec. FY 2016	Approved FY 2016	Gov. Rec. FY 2017	Approved FY 2017
Beginning Balance	\$ 10,139,402	\$ 10,139,402	\$ 928,769	\$ 928,769
Revenues

Interest & Other Revenues	75,000	75,000	75,000	75,000
State Housing Trust Fund Transfer	(2,000,000)	(2,000,000)	(2,000,000)	(2,000,000)
IT Certification Transfer (SGF)	--	(128,547)	--	--
Special Allotment Authority (SGF)	--	--	--	(661,661)
State General Fund Transfer	(27,765,345)	(27,765,345)	(19,284,768)	(19,284,768)
Total Available	\$ 22,881,057	\$ 22,752,510	\$ 22,151,001	\$ 21,489,340
Expenditures	21,952,288	21,823,741	22,151,001	21,446,166
Ending Balance	\$ 928,769	\$ 928,769	\$ --	\$ 43,174

The Legislature reduced EDIF expenditures by \$43,174 in FY 2017 by extending the KPERS death and disability employer contribution moratorium. However, these EDIF savings were not transferred to the State General Fund and will be retained in the EDIF ending balance for FY 2017. The Budget Director's special allotment authority contained in SB 161 reduced EDIF budgets by a total \$661,661 in FY 2017, including \$455,581 from the Department of Commerce and \$206,080 from the Department of Wildlife, Parks & Tourism. These savings will be transferred to the State General Fund in FY 2017. No other adjustments were made to the FY 2017 EDIF budget.

The Legislature concurred with the Governor's EDIF revenue estimates for FY 2017, including EDIF transfers of \$19.3 million to the State General Fund and \$2.0 million to the State Housing Trust Fund.

Overall, the approved revenues and expenditures resulted in an EDIF ending balance of \$928,769 in FY 2016 and \$43,174 in FY 2017.

Approved Expenditures

The Legislature approved \$21.8 million in EDIF expenditures for FY 2016 and \$21.4 million for FY 2017. A detailed description of the changes made by the Legislature to individual projects or programs is presented below. Approved expenditures for this fund for FY 2017 are summarized in the table on this page. In addition, Economic Development Initiatives Fund projects are listed in Schedule 2.4 at the back of this report.

Department of Commerce

Operating Grant. The EDIF Operating Grant was reduced by \$455,581 in FY 2017 from the Budget Director's special allotment authority contained in SB 161. The EDIF Operating Grant supports the Department of Commerce's traditional programs, including the Kansas Industrial Training and Retraining programs in its Workforce Services Division and financing the business recruitment efforts of the Business and Community Development Division. The lapsed funding will be transferred to the State General Fund in FY 2017 and was authorized when the ending balance of the State General Fund is estimated to be less than \$100.0 million.

Department of Wildlife, Parks & Tourism

Tourism Division. The EDIF amount for the Tourism Division was reduced by \$82,430 in FY 2017 with the Budget Director's special allotment authority contained in SB 161. The EDIF appropriation for this program is used in conjunction with the Publication and Other Sales Fund to develop and enhance the Kansas tourism industry.

Parks Program. The EDIF amount for the Parks Program was reduced by \$123,650 in FY 2017 with the Budget Director's special allotment authority contained in SB 161. The EDIF appropriation for the Parks Program is used in conjunction with the Parks Fee Fund to support the operations of the 26 state parks located throughout Kansas.

State Water Plan Fund

Water quality and water supply projects are largely financed through the State Water Plan Fund. Revenue from seven user fees and pollution fines and penalties are deposited in the fund.

FY 2016 began with an unencumbered balance in the fund of \$3.1 million, and the Legislature concurred with the Governor’s recommendation for expenditures from the fund of \$16.2 million. The Legislature made a change to the Governor’s expenditure recommendations for FY 2017 with partial year reductions of employer contributions to the Kansas Public Employees Retirement System (KPERs) Death and Disability Program, resulting in approved expenditures of \$13.1 million.

Included in the amounts approved for both years is funding for bond payments for the John Redmond Reservoir Dredging Project. For this purpose, the Governor recommended and the Legislature approved transfers from the State Water Plan Fund to the State General Fund of \$1.5 million in FY 2016 and \$916,550 for FY 2017.

State Water Plan Fund		
	FY 2016	FY 2017
Beginning Balance	\$ 3,123,158	\$ 20,436
Revenues:		
Fee Revenue	13,103,809	13,183,805
Total Available	\$ 16,226,967	\$ 13,204,241
Expenditures:		
Agency Expenditures	16,206,531	13,109,241
Ending Balance	\$ 20,436	\$ 95,000

The three tables in this section detail the legislative approved expenditure and revenue estimates for FY 2016 and FY 2017, including the fund balances, approved expenditures by agency, and sources of revenue to the fund.

State Water Plan Fee Revenue		
	FY 2016	FY 2017
Municipal Water Fees	3,276,255	3,309,018
Fertilizer Registration Fees	3,525,200	3,525,200
Industrial Water Fees	1,200,934	1,212,943
Pesticide Registration Fees	1,230,000	1,230,000
Sand Royalty Receipts	99,000	99,000
Stock Water Fees	421,704	425,921
Clean Drinking Water Fees	3,100,716	3,131,723
Fines	250,000	250,000
Total	\$ 13,103,809	\$ 13,183,805

Approved Expenditures

The Legislature concurred with the Governor’s State Water Plan Fund recommendations for FY 2016 and FY 2017, with the exception of the previously mentioned global reductions to employer contributions to the KPERs Death and Disability Program in FY 2017.

Department of Agriculture

Conservation Reserve Enhancement Program. For FY 2016, the Governor recommended expenditures of \$715,066 from the State Water Plan for the Conservation Reserve Enhancement Program (CREP), and the Legislature concurred with that recommendation. Through FY 2016, funding for CREP was authorized by a lengthy proviso in the annual appropriation bill. The 2015 Legislature deleted all FY 2017 funding for the program from that session’s appropriations bill and directed the Department to draft a bill that would permanently authorize the program in statute. The Department did so, and SB 330 which put the language of the proviso into statute was signed into law by the Governor. The agency plans to request CREP funding for FY 2017 in its revised budget that will be submitted in the fall of 2016.

State Water Plan Fund

Project or Program	FY 2016	FY 2017

* These amounts do not show up as agency expenditures as they are transferred out to the State General Fund.

State Employees

Judicial Branch Salaries

The 2016 Legislature approved total salaries and wages expenditures for Kansas courts of \$125.4 million, including \$102.5 million from the State General Fund in FY 2016, and \$129.5 million, including \$107.3 million from the State General Fund in FY 2017 to compensate 1,861.80 FTE positions each fiscal year. The positions enumerated includes 267.00 judicial and 1,594.80 nonjudicial employees. The State General Fund appropriations include \$2.5 million in FY 2016 and \$6.2 million in FY 2017 to support increases in expenditures for salaries and wages authorized by the 2015 Legislature through the enactment of HB 2005. This includes funding for increased employer contributions for retirement; increases in other fringe benefits, such as longevity bonus payments; judicial retirement contributions; and health insurance. The Judiciary's FY 2017 approved budget also includes \$4.1 million to fund the 27th payroll which occurs approximately every 11 years. The approved amounts do not include the Judiciary's enhancement requests totaling \$22.2 million from the State General Fund in FY 2017, which mainly included additional salaries and wages expenditures to increase the number of judicial and court clerk positions; to increase pay for judicial and nonjudicial employees; and to fill 80.00 vacant positions. Savings applied globally from a moratorium on contributions to the KPERS Death and Disability Fund is discussed in a separate section of this report.

Fringe Benefits

KPERS Death & Disability Moratorium

Last year, the 2015 Legislature placed a moratorium on contributions to the Group Insurance Reserve Fund for the last seven pay periods in FY 2017. At that time, it was estimated that the moratorium would produce State General Fund savings of \$11.5 million. The 2016 Legislature extended the FY 2017 moratorium to all pay periods in the fiscal year increasing the savings by \$30.4 million. Altogether, the FY 2017 KPERS Death and Disability moratorium

is expected to produce total savings of \$41.9 million from the State General Fund.

Public Employee Retirement Benefits

KPERS Employer Contribution Reductions

House Sub. for SB 161, Section 98 (a)(1), authorizes the Director of the Budget to reduce expenditures or transfer funds if the amount of the unencumbered ending balance of the State General Fund is estimated to be below \$100.0 million for FY 2016. Expenditure reductions can include reducing employer contributions for the Kansas Public Employee Retirement System (KPERS). Any reductions made to employer contributions must be paid back under the process specified in House Sub. for SB 249, Section 50 through 52. Using this authority, a total of \$96.5 million in employer contributions were withheld from the KPERS retirement system in FY 2016. Of this amount, \$90.6 million was from the KPERS School group and an estimated \$5.9 million was from the KPERS State group. For the KPERS School group, the amount withheld consisted of (1) reducing Department of Education expenditures of \$84.0 million from the State General Fund and lapsing the associated funds; and (2) transferring \$6.6 million from the Department of Education Expanded Lottery Act Revenues Fund (ELARF) account to the State General Fund.

For the KPERS State group, an estimated total of \$5.9 million from the State General Fund was withheld through an accounting process that suspended the cash associated with agency State General Fund employer contributions for the pay periods corresponding to the pay dates of May 20, 2016, June 3, 2016, and June 17, 2016. This process was developed to avoid logistically difficult programming changes in SHARP and the need for KPERS to adjust and recertify employer contribution rates. All KPERS State group non-State General Fund employer contribution payments were made to KPERS in FY 2016. There will be no changes to the current KPERS rates of 10.91 percent in FY 2016 and 10.81 percent in FY 2017.

Statewide Summary of Salaries

Mental Health Hospitals. The Legislature reviewed data related to the number of vacant positions that led to critical staffing shortages at both Osawatomie State Hospital and Larned State Hospital. These vacancies are due partly to the remote location of both hospitals, the difficulty of the work, and competition from other hospitals that offer higher salaries. The Legislature appropriated supplemental funding for FY 2016 from the State General Fund in House Substitute for SB 161 for each hospital in order to ensure adequate funding

for direct care staff. The supplemental funding included \$2.0 million for Osawatomie and \$875,231 for Larned.

Governor's Budget Amendment No. 1 recommended direct care salary increases from the State General Fund for both hospitals in FY 2017. The Governor recommended \$1.3 million to provide a 10.0 percent increase for Registered Nurse pay and a 12.0 percent increase for Mental Health Technician pay at Osawatomie. For Larned, the Governor recommended \$450,000 that will provide a 2.5 percent salary increase for Mental Health Technician pay.

Amounts include all off budget expenditures for the Department of Administration.

Function Summaries

General Government Summary

The General Government function includes agencies that perform administrative services for all state agencies, offer overall policy guidance to state government, collect and distribute state revenues, and perform regulatory functions. This function of government includes the budgets of elected officials, such as the Governor’s Office and the Secretary of State; administrative agencies, such as the Departments of Administration and Revenue; regulatory agencies, such as the Kansas Racing and Gaming Commission and Corporation Commission; the Judicial Branch of government; and other professional licensing and regulatory boards. The agency with the largest number of state employees in the General Government function is the Judicial Branch, followed by the Department of Revenue, and then the Department of Administration.

The professional licensing and regulatory boards have biennial budgets mandated by statute; however, Governor Brownback moved all state agencies to a biennial budget beginning in FY 2014. Collectively, general government agencies comprise 7.3 percent of the FY 2016 budget and 7.6 percent in FY 2017.

How It Is Financed

FY 2017

For FY 2016, the Legislature approved total expenditures of \$1.1 billion from all funding sources for the General Government function of government; this includes funding for 5,433.46 authorized positions which is equal to the Governor’s recommendation. The total includes \$259.2 million from the State General Fund with the remaining amount financed through federal funding sources, fee funds, and other special revenue funds. As compared to the Governor’s

recommendation, the approved amount represents a decrease of \$388,582 from all funding sources, and an increase of \$111,418 from the State General Fund.

How It Is Spent

FY 2017

The largest adjustment made for FY 2016 came in the form of a \$500,000 reduction to the Kansas Corporation Commission. The Governor recommended supplemental funding of \$500,000 to pay for costs associated with developing and submitting a state plan to the Federal Environmental Protection Agency concerning the Clean Power Plan rule. However, the 2016 Legislature suspended certain activities taken by state agencies as they relate to the Clean Power Plan rule because the U.S. Supreme Court has placed a stay on the rule. With this stay in place, the 2016 Legislature reduced the agency budget by \$500,000 from the Public Services Regulation Fund.

For FY 2017, the Legislature approved total expenditures of \$1.2 billion from all funding sources, including \$306.5 million from the State General Fund for the General Government function. As compared to the Governor’s recommendation, the approved amount includes a total reduction of \$660,001 from all funding sources, including decreased State General Fund expenditures of \$823,023. The Legislature also approved 5,468.22 authorized positions for FY 2017 which is an increase of 6.00 FTE above the Governor’s recommendation.

The 2016 Legislature made several notable adjustments for FY 2017 including the continuation of a global moratorium placed on the Kansas Public

Employee Retirement System death and disability expenditures. The Legislature also passed SB 387, which separates the Pooled Money Investment Board (PMIB) from the Office of the State Treasurer for budgeting purposes. The PMIB is a standalone state agency and submits its own budget every year; however, statutory requirements had combined the budget of the PMIB with the budget of the Office of the State Treasurer during the budgeting process. SB 387 makes changes to keep these agencies separate throughout the budgeting process. The bill also includes language to separate the two agencies in other ways.

Other adjustments to the Governor's recommendation for the General Government budget are listed by agency throughout the remainder of this section.

Executive Branch Agencies

Department of Administration. The Governor's on budget recommendation for FY 2017 was reduced by \$31,803 from the State General Fund and \$44,176 from all funds. Similarly, the off budget portion of the Department's expenditures was reduced by \$159,875 from all funds. Altogether, the Legislature approved a budget of \$120.2 million from the State General Fund and \$227.4 million from all funds for FY 2017. Of the total all funds amount, \$179.4 million is part of the reportable budget and \$48.0 million is off budget.

In order to ensure that actions on the Docking State Office Building and energy center project are not taken without legislative authorization, the Legislature prohibited expenditures from the Docking State Office Building Rehab, Repair and Razing Fund in FY 2017. Also, no state agency may expend any monies for FY 2016 or FY 2017 to demolish the Docking State Office Building or to reconstruct, relocate, or renovate the power plant or energy center without prior specific authorization by the Legislature.

The Legislature adopted Governor's Budget Amendment No. 1, Item 13, which reduces \$6.5 million from the State General Fund in FY 2017 from the implementation of certain Alvarez and Marsal (A&M) recommendations from the *Kansas Statewide Efficiency Review*. It is not yet known which recommendations will produce savings or in which agencies the savings will be realized. As a result, the

Department of Administration must certify to the Director of the Budget the amount of savings generated in each agency from the efficiency study. The Director of the Budget must, in turn, certify to the Office of the Chief Financial Officer each amount to be lapsed from the State General Fund or transferred from special revenue funds.

The Legislature amended existing law regarding the sale of surplus property to effectively implement Real Estate and Lease Management–Recommendation No. 3 from the *Kansas Statewide Efficiency Review* by A&M. State agencies and the Department of Administration must identify and sell all surplus real estate “as soon as practicable.” The Department of Administration is required to identify and approve the sale of all surplus real estate by November 1, 2016. The surplus real estate identified through the special process is exempt from current appraisal procedures in KSA 75-0343a. Also, under prior law 20.0 percent of the proceeds from the sale of surplus real estate must be credited to the state agency that owned the real estate and 80.0 percent of the proceeds must be credited to the Kansas Public Employees Retirement System and applied to the unfunded actuarial liability. The new provisions would instead credit the proceeds, less Department of Administration expenses associated with each sale of surplus real estate, to the state agency. These special provisions for surplus real estate will expire on June 30, 2017.

Office of Information Technology Services. Last year, \$15.0 million from cabinet agency information technology savings was factored into the FY 2016 budget as authorized by 2015 House Substitute for SB 112, Section 80(s)(1). However, it was not known at the time which agency budgets would produce the savings. On April 1, 2016, total information technology savings of \$9.0 million was certified. Of this amount, \$7.0 million was credited to the State General Fund and \$2.0 million was transferred to the Office of Information Technology Services to support executive branch IT costs. Of the total amount credited to the State General Fund, \$1.3 million was from State General Fund lapses and \$5.7 million was from special revenue fund transfers. The remaining \$8.0 million from the original 2015 estimate was realized through supplanting State General Fund resources with Education Building Fund resources for Board of Regents IT operations.

Kansas Corporation Commission. Supplemental funding in the amount of \$500,000 from the Public Services Regulation Fund was included in the Governor's recommended FY 2016 budget for the Kansas Corporation Commission. This additional funding was intended to pay for the costs associated with 2015 HB 2233, which established the procedure for developing and submitting a state plan to the federal Environmental Protection Agency in order to comply with the proposed Clean Power Plan rule. As part of the requirements of the bill, the agency needed to hire outside consultants to evaluate re-dispatch models submitted to the agency by the Southwest Power Pool and other utilities. The 2016 Legislature, however, passed SB 318, which suspended certain state agency activities related to the Federal Clean Power Plan until the U.S. Supreme Court stay on implementation of the Plan is lifted. The Legislature then reduced the agency budget by \$500,000 for a total approved amount of \$22.2 million for FY 2016.

Pooled Money Investment Board. The 2016 Legislature passed SB 387 and the bill was signed into law by the Governor. The bill recognizes the Pooled Money Investment Board (PMIB) as a separate state agency for the purposes of budget preparation and reporting. SB 387 requires the budgets of the Office of the State Treasurer and the PMIB to remain separated throughout the budgeting and review process; the bill also eliminates provisions linking the two agencies by budget, office space, services, equipment, and other functions. As a direct result of SB 387, the 2016 Legislature created a separate budget for the PMIB and approved expenditures totaling \$647,019 in FY 2016 and \$672,287 in FY 2017. In both years the expenditures are approved from the Pooled Money Investment Portfolio Fee Fund which is the agency's only source of funding. SB 387 also separates FTE of the PMIB from the Office of the State Treasurer. As a result of this, the 2016 Legislature approved 5.00 FTE for the PMIB.

KPERS. The Legislature retained the Governor's recommendation for the Kansas Public Employee Retirement System (KPERS) of \$49.6 million from all funds in FY 2016. The KPERS budget does not include State General Fund appropriations. Additionally, this amount excludes expenditures associated with member benefit payments. While those expenditures are evaluated and tracked, for reporting purposes all benefits for KPERS members

are excluded from the total amounts found in this volume for the KPERS and statewide budgets. It is assumed that the same dollars that agencies and other participating employers budget for KPERS contributions are also used for benefits. This measure prevents the double-counting of those dollars. The FY 2016 budget maintains the approved limit of \$11.9 million for operations. The Governor's FY 2017 recommendation was reduced by \$50,452 for a total approved budget of \$50.5 million from all funding sources. The reduction was a result of the KPERS Death and Disability moratorium enacted by the Legislature. The FY 2017 operations limitation is \$12.3 million.

House Substitute for SB 161, Section 98 (a)(1), authorizes the Director of the Budget to reduce expenditures or transfer funds if the amount of the unencumbered ending balance of the State General Fund is estimated to be below \$100.0 million for FY 2016. Expenditure reductions can include reducing employer contributions for KPERS. Any reductions made to employer contributions must be paid back by the end of FY 2018. Using this authority, a total of \$96.5 million in employer contributions were withheld from the KPERS retirement system in FY 2016. Of this amount, \$90.6 million was from the KPERS School group and an estimated \$5.9 million was from the KPERS State group. For the KPERS School group, the amount withheld consisted of (1) reducing Department of Education expenditures of \$84.0 million from the State General Fund and lapsing the associated funds; and (2) transferring \$6.6 million from the Department of Education Expanded Lottery Act Revenues Fund (ELARF) account to the State General Fund.

For the KPERS State group, an estimated total of \$5.9 million from the State General Fund was withheld through an accounting process that suspended the cash associated with agency State General Fund employer contributions for the pay dates of May 20, 2016, June 3, 2016, and June 17, 2016. This process was developed to avoid logistically difficult programming changes in the state payroll system and the need for KPERS to adjust and recertify employer contribution rates. All KPERS State group non-State General Fund employer contribution payments were made to KPERS in FY 2016.

The Legislature passed House Substitute for SB 168 which made changes to several KPERS-related policy

areas including working after retirement, death and disability contributions, KPERS 3 members, the tax status of 457 Roth accounts, optional 401(a) plans for local public employers, retirement income planning, and the Deferred Retirement Option Program (DROP). For the provisions regarding working after retirement, there could be an actuarial impact on the retirement system, which would be reflected in future employer contribution rates. Also, KPERS estimates that the bill would require modifications to the agency's information technology system and database to assist employers and archive new forms. However, it is anticipated that the costs would be negligible. KPERS also expects additional staff responsibilities for communications and services to retirees and employers subject to working after retirement provisions, reporting and payment functions, and other administrative duties. KPERS notes that working after retirement rules are growing in complexity from the recent changes to current law. While KPERS anticipates absorbing additional workload, further consideration of appropriate staffing levels may be required in the future as KPERS' gains experience with the administrative impact of the new rules.

For the KPERS 3 cash balance plan and the death and long-term disability benefits plan amendments, there would be no fiscal effect on the retirement system or administrative costs (please see the State Employees section of this volume for statewide estimates on the KPERS Death and Disability moratorium). For the Roth 457 plans, KPERS currently funds KPERS 457 expenses from a 0.04 percent asset charge on KPERS 457 accounts. It is expected that this charge would be extended to Roth accounts to offset any expenses related to the Roth 457 plan. The amendments to the DROP plan are technical in nature and would not change the employer contribution estimates made when the DROP plan was adopted in 2015.

Department of Commerce. The Legislature approved the transfer of \$3.7 million from the Kansas Partnership Fund in FY 2016, which is \$25,745 less than the amount recommended in the Governor's budget. The Legislature approved the Governor's FY 2016 budget recommendation that transfers \$1.9 million from the Kansas Existing Industry Expansion Fund to the State General Fund. The Legislature approved the Governor's budget recommendations to suspend the planned income tax withholding transfer of \$3.5 million to the Job Creation Program Fund in FY 2016.

The Legislature approved the Governor's budget amendment that lapsed \$127,547 from EDIF Operating Grant in FY 2016. The EDIF Operating Grant supports the Department of Commerce's traditional programs, including the Kansas Industrial Training and Retraining programs in its Workforce Services Division and financing the business recruitment efforts of the Business and Community Development Division. The lapsed EDIF funding was transferred to the State General Fund and represents part of the overall FY 2016 IT Savings Certification from cabinet agencies for information technology projects that will no longer be needed.

The Legislature approved the Governor's FY 2017 budget recommendation that suspends the planned income tax withholding transfer of \$3.5 million to the Job Creation Program Fund. The EDIF Operating Grant was reduced by \$455,581 in FY 2017 from the special allotment authority contained in SB 161. The lapsed funding will be transferred to the State General Fund in FY 2017 and was authorized when the ending balance of the State General Fund is estimated to be less than \$100.0 million.

The Legislature passed HB 2632, which allows the State Finance Council to sell the assets of the Kansas Bioscience Authority (KBA). Once the sale is approved, all proceeds of the KBA portfolio will be deposited in the State General Fund and long-term grant commitments made by the KBA will be transferred to the Department of Commerce. The omnibus appropriation bill (SB 249) appropriates \$6.6 million from the State General Fund for FY 2017 KBA grant commitments that is dependent on the State Finance Council approving the sale of the KBA portfolio. Future long-term KBA grant commitments will be addressed in future budgets.

Kansas Lottery. The Legislature approved the Governor's budget amendment to increase the FY 2016 State Gaming Revenues Fund (SGRF) transfer from regular lottery ticket sales by \$2.0 million, from \$76.2 million to \$78.2 million. The higher transfer is directly related to the large Powerball jackpot that substantially increased lottery ticket sales in early January. The Legislature approved the Governor's recommendation to transfer \$77.3 million to the SGRF in FY 2017. Because any receipts to the SGRF in excess of \$50.0 million are transferred to the State General Fund at the end of the year, the State General

Fund is estimated to receive \$28.2 million in FY 2016 and \$27.3 million in FY 2017.

The Expanded Lottery Act Revenues Fund receives money from the initial privilege fees paid by gaming facility managers and from a percentage of net revenue from gaming operations. The Legislature approved a budget amendment issued by the Governor to adjust the amount of net gaming revenues that the state will receive based on the latest consensus revenue estimates for FY 2016 and FY 2017. The Legislature approved net gaming revenues of \$370.5 million for FY 2016, which is an increase of \$1.8 million from the amount estimated in October 2015. For FY 2017, the net gaming revenue estimated was decreased by \$7.8 million, from \$394.7 million to \$386.9 million.

The changes in net gaming revenues also require adjustments to the Kansas Lottery's budget for contractual service payments to gaming facility managers and aid to local government payments to cities and counties where gaming facilities are located. The Kansas Lottery budget for gaming facility expenses was increased by \$1.4 million in FY 2016 and was reduced by \$5.9 million in FY 2017. The lowered gaming facility revenue estimate and associated gaming facility expenses for FY 2017 is primarily a result of lowered gaming facility revenue that is estimated to be generated from the new gaming facility in the Southeast Kansas gaming zone. Litigation delayed initial construction and the gaming facility is now expected to open later than previously estimated. A complete explanation of receipts to the Expanded Lottery Act Revenues Fund and the State Gaming Revenues Fund can be found in the Budget Issues section.

Department of Revenue. The Legislature approved the Governor's FY 2016 budget recommendations that transfers \$52,497 from the Hazmat Fee Fund to the State General Fund, reduces ethanol incentive payments by \$1.6 million, and transfers \$3.5 million from the Kansas Qualified Agricultural Ethyl Alcohol Producer Fund to the State General Fund. The Legislature approved the Governor's budget recommendation to add \$500,000 from the State General Fund and 21.00 FTE positions to enhance delinquent tax debt collections. The agency estimates the additional staff will bring in \$7.5 million worth of unpaid taxes in FY 2016, primarily from retail sales and individual income taxes. The Legislature

approved the Governor's budget amendment that provided clarifying language for the IT Savings Certification. The IT Savings Certification transferred \$3.0 million from the Division of Vehicles Modernization Fund in FY 2016 and represents part of the overall FY 2016 IT Savings Certification from cabinet agencies for information technology projects that will no longer be needed.

The Legislature approved the Governor's FY 2017 budget recommendations that lapses \$1.0 million from the State General Fund appropriation for operating expenditure savings, reduces ethanol incentive payments by \$3.5 million, and transfers \$3.5 million from the Kansas Qualified Agricultural Ethyl Alcohol Producer Fund to the State General Fund. The Legislature approved the Governor's recommendation that added \$2.4 million from the State General Fund and 48.00 FTE positions (21.00 FTE positions continued from FY 2016 and 27.00 new FTE positions hired in FY 2017) to enhance delinquent tax debt collections. The agency estimates the additional staff will bring in \$41.7 million worth of unpaid taxes in FY 2017, primarily from retail sales and individual income taxes. This is a long term plan with additional FTE positions that will be hired in future fiscal years to increase future delinquent tax debt collections.

The Legislature did not approve the Governor's budget recommendation that would reduce expenditures from the Division of Vehicles Operating Fund by \$562,000 by allowing the Department to send out a postcard in lieu of a more costly vehicle registration renewal notice letter. The Legislature also did not approve the Governor's budget recommendation to transfer the estimated savings to the State General Fund.

The Legislature approved HB 2289 that amended the law concerning a driver's license suspension due to test refusal or test failure for DUI cases. The appropriation bill included additional funding of \$127,832 from the Division of Vehicles Operating Fund in FY 2017 for the salaries and wages and operating expenditures for 2.00 new FTE Attorney Positions. The additional funding and positions will address the Department's estimated additional district court workload as a result of the bill.

The Legislature approved tribal-state compacts between the State of Kansas and the Prairie Band

Potawatomi Nation (SB 484) and Iowa Tribe of Kansas and Nebraska (SB 485). Each of the compacts require the Department of Revenue to manufacture and deliver specific cigarette tax stamps to each of the Tribal Nations, perform enforcement and accounting activities for tobacco sales on qualified tribal lands, reimbursement of certain enforcement efforts, and payments to the Tribal Nations for its assistance in the state's diligent enforcement requirements of the Master Settlement Agreement from the 1998 tobacco settlement. The Legislature approved the Governor's budget amendment that added \$450,000 from the State General Fund and 3.00 new FTE positions in FY 2017 to help ensure that Kansas meets the diligent enforcement requirement of the Master Settlement Agreement and allows Kansas to continue to receive approximately \$60.0 million in annual tobacco payments.

Board of Tax Appeals. The Legislature's approved budget for the Board was \$1.9 million from all funds, including \$794,569 from the State General Fund. A reduction of \$31,783 from the State General Fund was made by the Budget Director under the authority of 2016 House Substitute for SB 161, Section 98 (a)(2). This action brought the final FY 2017 budget for the Board of Tax Appeals to \$762,786 from the State General Fund and \$1.8 million from all funds.

The Legislature passed House Substitute for SB 280 which included various property tax provisions. The bill was vetoed by the Governor but the veto was overturned. The bill adds clarifying provisions that govern the issuance and review of the Board of Tax Appeals' decisions. An aggrieved party may file a petition for reconsideration after a full and complete opinion has been rendered. Also, an aggrieved party will be allowed to file a petition for review of a Board's order in the Court of Appeals after a full and complete opinion has been issued by the Board for all board decisions that have been issued after June 30, 2014. Taxpayers may elect to appeal any summary decision or full and complete opinion of the Board of Tax Appeals by filing a petition for review in district court. District reviews of Board orders relating to the assessment of property valuation for ad valorem tax purposes will be conducted by the court of the county in which the property is located. The bill also will make other changes to Board procedures, independent appraisals and valuation of property. The bill will have no fiscal effect on the Board.

Regulatory Fee Agencies

Office of the State Bank Commissioner. The Legislature approved the Governor's recommendation to transfer \$1.5 million from the Bank Commissioner Fee Fund, specifically from funds collected for the Consumer and Mortgage Lending Regulation Program, to the State General Fund in FY 2016. The number of regulated entities has increased substantially in the last few years, which has increased the amount of fee revenue collected for this program and has created large ending balances.

Board of Nursing. The Legislature passed HB 2615 which is a comprehensive bill regarding health care providers, and specifically establishes The Independent Practice of Midwifery Act, which will become effective on January 1, 2017. The bill will allow certified nurse-midwives to practice without a collaborative practice agreement with a person licensed to practice medicine and surgery. The bill also prohibits nurse-midwives from performing or inducing abortions or from prescribing drugs for an abortion. The Board of Nursing will work collaboratively with the Board of Healing Arts to establish rules and regulations.

Board of Veterinary Examiners. 2014 SB 278 moved the Board of Veterinary Examiners into the Department of Agriculture for FY 2015 and FY 2016. According to statute, the Board will once again become an independent agency in FY 2017, and the Legislature approved expenditures \$393,111 from the agency fee fund. The amount budgeted for the operations of the Board in the Department of Agriculture budget, \$292,251, was reduced from that agency's budget for FY 2017.

Executive Branch Elected Officials

Attorney General. The FY 2016 budget approved by the Legislature was equal to the Governor's recommendation of \$5.7 million from the State General Fund and \$21.8 million from all funds. The Legislature retained additional funding of \$197,090 that was included in the Governor's budget. Of this amount, \$50,000 is from the State General Fund and will provide the Office of the Attorney General resources in the event a lawsuit is necessary to protect the state from any federal decision to transfer prisoners

from the Guantanamo Bay prison. The remaining sum of \$147,090 from special revenue funds will fund 2.00 new FTE Child Crime Investigator positions.

The Legislature reduced the FY 2017 recommended budget by \$24,011 from the State General Fund and \$56,761 from all funds. The approved budget totals \$5.8 million from the State General Fund and \$21.7 million from all funding sources.

The Legislature passed a handful of bills that will affect the agency. SB 334 enacts new law and amends existing law related to the ability of the Attorney General to be fully heard before any Kansas statute or constitutional provision is determined by a Kansas court to be invalid or unconstitutional. This bill will not require additional expenditures for the Office of the Attorney General.

SB 408 amends law relating to the abuse, neglect, and exploitation of persons and law relating to the duties and powers of the Attorney General. The Office will be able to absorb the duties associated with SB 408 within the agency's approved budget.

Senate Substitute for HB 2056 creates and amends law relating to sureties and bail enforcement agents and gives the Attorney General responsibility for regulating and licensing bail enforcement agents. For the Office of the Attorney General, the primary expense associated with this bill will be the processing and issuing of bail enforcement agent licenses. It is not known how many individuals will be required to be licensed or the additional workload that will be generated for the Office. The agency estimates that an additional 0.50 to 1.00 FTE position could be required. Additional expenditures, including start-up and support costs, would range from \$32,387 to \$55,727 annually. Costs would drop by approximately \$4,000 to \$5,000 in the out-years after start-up costs were paid. Revenues for the substitute bill would come from the \$200 licensure fee and \$175 renewal fee. Optimally, the fees collected would offset the cost of operating the program.

HB 2460 creates and amends law in the Kansas Consumer Protection Act (KCPA) regarding identity theft and identity fraud and creates the crime of violation of a consumer protection order, regarding door-to-door sales. The Office will be able to carry out the responsibilities in the bill using approved resources. If the bill results in the Office having to

prosecute or litigate additional cases, expenditures for those cases will be offset by revenues collected under the KCPA.

HB 2502 makes changes to several laws concerning firearms. One set of provisions makes several amendments to concealed carry statutes to allow active duty military personnel to apply for and receive a concealed carry license while stationed outside of Kansas. The Office of the Attorney General estimates that this method of obtaining a concealed carry handgun license will not be used widely and the fiscal effect on agency operations will likely be negligible. Any expenses incurred by the Office from processing applications and paying for fingerprint-based background checks would be offset by application fees. Other provisions of the bill may generate numerous requests from legislators and local government entities for the Attorney General to issue formal interpretations of the effects of those changes. If the number of these requests continues to grow, the Office may need an additional attorney to handle the increased volume of opinion requests.

State Treasurer. The 2016 Legislature passed SB 387 and the bill was signed into law by the Governor. The bill recognizes the Pooled Money Investment Board (PMIB) as a separate state agency for the purposes of budget preparation and reporting. SB 387 requires the budgets of the Office of the State Treasurer and the PMIB to remain separated throughout the budgeting and review process; the bill also eliminates provisions linking the two agencies by budget, office space, services, equipment, and other functions. As a direct result of SB 387, the 2015 Legislature decreased expenditures of State Treasurer by \$647,019 in FY 2016 and by \$672,287 in FY 2017. These amounts are equal to the budget of the PMIB in FY 2016 and FY 2017. The bill also separates FTE of the agencies and, as a result, reduces the FTE of the Office of the State Treasurer by 5.00 FTE.

Legislative Branch Agencies

Legislature. The Legislature added \$111,418 from the State General Fund to its own budget in FY 2016. Of this amount, \$61,418 were for claims from various Kansas counties for sexual predator costs, as well as \$50,000 for costs associated with representing the Legislature in the current school finance lawsuit brought by Kansas school districts.

Judicial Branch Agencies

Judiciary. The 2015 Legislature enacted HB 2005 which, among other provisions, appropriates funding and authorizes expenditures for Judicial Branch operations. The legislation also includes a nonseverability clause, which declares the entire act null and void if any of its provisions, or any provision of 2014 HB 2338 is held to be invalid or unconstitutional. One such provision related to the election of chief judges was challenged in the case *Solomon v. State*, and was found by the District Court to be a violation of the Kansas Supreme Court's general administrative authority over the courts of the state granted under Article 3, Section 1 of the *Kansas Constitution*. The Supreme Court later upheld the District Court's decision, also noting that the nonseverability clause could affect the Judicial Branch budget. Following the Supreme Court ruling the Legislature enacted and the Governor signed into law HB 2449 which repealed the nonseverability clause allowing the Judicial Branch budget to remain intact.

In total, the Judiciary's FY 2016 approved budget includes expenditures of \$133.3 million, including \$102.0 million from the State General Fund. For FY 2017, the Legislature approved total expenditures of \$137.5 million, of which, \$105.2 million is from the State General Fund. The approved budget for both FY 2016 and FY 2017 includes an additional \$200,000 in expenditures to support the Court Appointed Special Advocate Program by way of funds transferred from the Kansas Endowment for Youth Fund authorized during the 2015 Legislative Session. The approved budget also includes expenditures from the Electronic Filing and Management Fund of approximately \$2.4 million in FY 2016 and \$1.5 million in FY 2017 to implement the Kansas Courts Electronic Filing initiative. The fund was created during the 2014 Legislative Session to receipt a portion of revenues from docket fees designated to move Kansas state courts from a paper-based system to one that relies on electronic documents.

Both the Governor and Legislature denied the Judiciary's enhancement requests totaling \$22.2 million from the State General Fund in FY 2017, which mainly included additional salaries and wages expenditures to increase the number and compensation of judicial and nonjudicial employees and to fill 80.00 vacant positions. Savings applied globally from a

moratorium on payments to the KPERS Death and Disability Fund in FY 2017 is discussed in a separate section of this report.

The Legislature enacted and the Governor signed SB 128, which makes several changes to statutes governing the processes for selecting members of the Supreme Court Nominating Commission and the district judicial nominating commissions. Most notably, each Commission is deemed a public body and subject to the Kansas Open Meetings Act (KOMA). All proceedings relating to accepting nominations, conducting interviews and submitting the names of nominees to the Governor will be open to the public in accordance with KOMA. An allowance for closed or executive meetings would be specifically for the purpose of discussing sensitive financial information contained within the personal financial records or official background check of a candidate for judicial nomination.

The bill requires attorneys to be licensed and residing in Kansas in order to nominate or receive and cast ballots as lawyer members of the Supreme Court Nominating Commission or a district judicial nominating commission. Commission members must also reside in the appropriate congressional district prior to selection. The Clerk of the Supreme Court will maintain a certified roster of licensed attorneys to ascertain eligibility for ballots or membership. Certain provisions would be subject or exceptions to Kansas Open Records Act requests.

Under SB 128, the Supreme Court Nominating Commission is required to make nominations of three persons to fill a vacancy in the Supreme Court and certify the names of the nominees to the Governor. A district judicial nominating commission is required to submit no less than three and no more than five names to the Governor for consideration when judicial vacancies occur in districts where the nonpartisan selection process is used. For the appointment of judges of the Court of Appeals, the Governor must make each applicant's name and city of residence available to the public once applications are no longer accepted, but not less than ten days before an appointment is made.

According to the Office of Judicial Administration, SB 128 could produce savings for the Judicial Branch because it increases the likelihood that a district

judicial nominating commission will have to look outside the district for qualified candidates, prolonging the process and keeping judicial positions open for a longer period of time. In contrast, keeping positions open longer could place an undue hardship on the district courts depending on the workload required at the time a judicial vacancy occurs. The Office indicates the bill will also increase Judicial Branch

expenditures for postage and nonjudicial staff time in preparing orders to be sent to municipal courts. In addition, costs will be incurred for the Clerk of the Supreme Court to create and maintain a roster of attorneys licensed to practice law in Kansas. Costs could be reduced to some extent through the purchase of an online attorney registration system, but the Office has not obtained current bids for such a system.

Human Services Summary

The Human Services function provides services to individuals needing assistance from the following agencies: the Department for Aging and Disability Services, the state hospitals for mental health and developmental disabilities, the Department for Children and Families, the Commission on Veterans Affairs, the Department of Labor, the Kansas Guardianship Program, and the Divisions of Health and Health Care Finance in the Department of Health and Environment.

The Legislature approved expenditures of \$5.2 billion in FY 2016 for Human Services activities and \$4.9 billion in FY 2017 for Human Services activities. In comparison to the Governor's recommendation, the 2016 Legislature approved \$3.6 million in additional expenditures from all funding sources in FY 2016 and reduced expenditures for FY 2017 by \$6.4 million from all funding sources.

How It Is Financed

FY 2017

State General Fund expenditures included in the approved amounts total \$1.7 billion for FY 2016 and \$1.6 billion for FY 2017. In comparison to the Governor's recommendation, the 2016 Legislature approved additional expenditures of \$3.0 million from the State General Fund for FY 2016. For FY 2017 the Legislature reduced State General Fund expenditures by \$12.8 million.

The approved budget for Human Services expenditures in FY 2016 represents 33.3 percent of all state expenditures and 26.8 percent of all State General Fund expenditures. The approved budget for Human Services expenditures in FY 2017 represents 31.2

percent of all state expenditures and 25.8 percent of all State General Fund expenditures.

Department for Aging & Disability Services

The Legislature concurred with the Governor's FY 2016 recommendation for the Department of \$1.5 billion, including \$628.4 million from the State General Fund, and further concurred with the Governor's Budget Amendment No. 1 that addressed the Human Services Consensus Caseload estimates. Governor's Budget Amendment No. 1 changed the budget to reflect changes in program participation and the cost of assistance programs based on the estimate. For FY 2016, total Kansas Department for Aging and Disability Services (KDADS) KanCare expenditures were increased by \$91.0 million, including \$32.0 million from the State General Fund. The major contributor to the increase for FY 2016 KanCare was the higher cost of capitated negotiated rates which now include the eligibility lag and supplemental medical education funding. The amendment also reduces the Consensus Caseload estimate by \$32.0 million including \$11.2 million to reallocate non-caseload medical savings to the proper caseload programs.

How It Is Spent

FY 2017

The Legislature concurred with the Governor's FY 2017 recommendation for the Department of \$1.4 billion, including \$629.5 million from the State General Fund, and further concurred with Governor's Budget Amendment No. 1 that addressed the Human Services Consensus Caseload estimate. The amendment changed the budget to reflect changes in

program participation and the cost of assistance programs based on the Consensus Caseload estimate. For FY 2017, total KanCare expenditures were increased by \$78.3 million, including \$28.6 million from the State General Fund. The major contributor to the increase for FY 2017 KanCare was the higher cost of capitated negotiated rates which now include the eligibility lag and supplemental medical education funding. Reflected in the estimate is the eligibility backlog that is requiring an increase in retroactive fee for service payments. The amendment also reduces the Consensus Caseload estimate by \$16.1 million including \$11.3 million from the State General Fund to reallocate non-caseload medical savings to the proper caseload programs.

Governor's Budget Amendment No. 1 also included an increase of \$3.9 million from the State General Fund in FY 2017 to continue contracting with community organizations for additional inpatient psychiatric beds because of the reduced number of inpatient beds available at Osawatomi State Hospital (OSH). These diversion beds provide an important back-up to the state psychiatric hospital during a critical time and mitigate the impact of the moratorium on admissions to OSH during the renovations required by the Center for Medicare and Medicaid Services (CMS). The Legislature approved the amendment. The KDADS budget was also reduced in FY 2017 to reflect a statewide reduction approved by the Legislature that will suspend the KPERS Death and Disability payments during FY 2017.

The Governor reduced State General Fund expenditures by \$17.5 million for the Department through the use of the special allotment authority that was included in House Substitute for SB 161. For KDADS, the reductions include: \$250,000 from Senior Care Act funds and \$17.2 million in reductions to Medicaid payments to Nursing Facilities and Mental Health Nursing Facilities. The Medicaid reductions will reduce federal expenditures by \$20.4 million.

The Legislature passed Senate Substitute for HB 2365 which increases the maximum annual amount of the quality care assessment and extends its sunset date. The bill also updates and makes changes to the membership and reporting requirements of the Quality Care Improvement Panel. The bill increases the maximum annual amount of the quality care assessment from \$1,950 to \$4,908 per licensed bed

and extends the expiration date of the assessment from July 1, 2016, to July 1, 2020. The bill requires the implementation of the statutory three-year rolling average to determine nursing facilities' reimbursement rates. The quality care assessment imposes an assessment on providers to generate new state funds. The new state funds are used to draw down additional federal funds which results in increased payments to providers for Medicaid eligible services.

Mental Health Hospitals

Osawatomi State Hospital. Recent surveys conducted by the Centers for Medicare and Medicaid Services resulted in plans of correction that required significant expenditures for building renovations to improve safety at Osawatomi State Hospital. The renovation projects reduced the available beds for patients during FY 2016 from 206 to 146. In December of 2015, CMS conducted another inspection at OSH and decertified the hospital due to non-compliance and safety concerns. This caused a loss of federal and private reimbursement for services.

To address the unanticipated loss of funding, Governor's Budget Amendment No. 1 added \$9.5 million from the State General Fund to the KDADS budget in FY 2016. Of this amount, \$3.6 million will be used for increased expenditures necessary for the continued operations of OSH, as well as consulting contracts necessary to regain CMS certification. The remaining \$5.9 million offsets reductions in fee fund and Title XIX revenues at OSH. Revenue shortfalls are attributable to the fact that OSH has been unable to bill Medicare, Medicaid, or certain private insurance providers since January 2016 and will not receive reimbursement from those sources until the hospital has been re-certified by CMS which the Department estimates that OSH will be re-certified in the summer of 2016. The Legislature adopted the amendment.

The Legislature also added \$2.0 million from the State General Fund in FY 2016 to address the understaffing and recertification issues at OSH. This appears as a line-item appropriation in the KDADS section of the appropriation bill, and also added language that would prohibit the privatization of OSH in FY 2016 or FY 2017 without specific authorization by the Legislature.

For FY 2017, the Legislature concurred with the Governor's recommendation and adopted Governor's Budget Amendment No. 1 that addresses staffing issues at OSH. The amendment increases SGF spending by \$1.3 million to provide for a 10.0 percent pay increase for Registered Nurses and Mental Health Technicians. This will assist OSH in the recruitment and retention of qualified direct care staff. In FY 2016, the Legislature approved expenditures for OSH totaling \$35.3 million from all funding sources, including \$22.8 million from the State General Fund. For FY 2017, expenditures totaling \$31.8 million from all funding sources, including \$13.5 million from the State General Fund was approved.

Larned State Hospital. The Legislature concurred with the Governor's FY 2016 and FY 2017 recommended budgets for Larned State Hospital (LSH) and further concurred with Governor's Budget Amendment No. 1 that addressed the staffing issues that LSH is experiencing. The Governor's recommendation increases SGF funding by \$450,000 in FY 2017 to provide for a 22.5 percent pay increase for Mental Health Technicians. The Legislature added \$875,231 from the State General Fund in FY 2016 to address the staffing shortfalls at LSH. This appears as a line-item appropriation in the KDADS section of the appropriation bill. The bill also includes language that would prohibit the privatization of LSH in FY 2016 or FY 2017 without specific authorization by the Legislature. In FY 2016, the Legislature approved expenditures for LSH totaling \$58.2 million from all funding sources, including \$45.0 million from the State General Fund. For FY 2017, expenditures totaling \$61.7 million from all funding sources, including \$46.8 million from the State General Fund was approved.

Department for Children & Families

The Legislature concurred with a Governor's Budget Amendment to adjust the Department for Children and Families' (DCF) budget to reflect the new Human Services Consensus Caseload Estimate for entitlement programs. For FY 2016, the estimate for the Temporary Assistance to Needy Families program is a decrease of \$648,965, all from federal funds. The number of families receiving services is expected to decrease at a faster rate than had been anticipated in the fall consensus caseload estimate. Expenditures for Foster Care are decreased by \$2.1 million from all funding sources, including \$4.6 million from the State

General Fund. The decrease in all funds still reflects an increase in the number of children anticipated to be in the foster care system, although the increase is lower than the estimate that was made by the group in the fall. For FY 2017, the estimate for the Temporary Assistance to Needy Families program is a decrease of \$1.7 million, all from federal funds. The number of families receiving services is expected to decrease at a faster rate than had been anticipated in the fall estimate. Expenditures for Foster Care are decreased by \$3.2 million from all funding sources, including \$1.5 million from the State General Fund. The decrease in all funds is attributable to the fact the number of children in out-of-home placement is expected to be lower than what had been anticipated in the fall consensus caseload estimate. The estimate still anticipates an increase in the number of children in the foster care system for FY 2017.

The agency's budget was reduced in FY 2016 by \$1.0 million, all from the State General Fund, to reflect information technology savings that were realized during the year. For FY 2017, the Legislature approved a Governor's Budget amendment to add \$1.1 million, including \$902,000 from the State General Fund, to finance the agency's efforts to improve recruitment and retention of social workers. In the May 18 allotment for FY 2017 the Department for Children and Families budget was reduced by \$3.2 million from the State General Fund and \$3.4 million from the CIF Grants account of the Children's Initiatives Fund. The State General Fund reduction resulted in the reduction of \$5.1 million in matching federal funds. The Legislature did not concur with the Governor's recommendation to replace Children's Initiatives Fund with State General fund, which resulted in a State General Fund reduction of \$7.2 million. The Legislature then approved \$42.0 million from the Children's Initiatives Fund for the new CIF Grants account under the control of the Children's Cabinet and allowed the Cabinet to choose its administrative/fiscal agent. The Cabinet chose the Kansas Department of Education (KSDE) as its fiscal agent, so the DCF budget was reduced by \$46.8 million and the KSDE budget was increased by the same amount.

Other Human Services Agencies

Health & Environment—Health. The Legislature concurred with the Governor's original FY 2016

recommendation of \$2.5 billion, including \$717.3 million from the State General Fund for the Divisions of Public Health and Health Care Finance. In addition, the Legislature adopted Governor's Budget Amendment No. 1 that addressed the Human Services Consensus Caseload estimate. The amendment changed the budget to reflect changes in program participation and the cost of assistance programs based on the estimates. For the Department of Health, State General Fund expenditures were reduced by \$23.7 million and other funding sources increased by \$10.1 million for a total decrease of \$13.6 million. While KDHE KanCare expenditures were reduced, KanCare expenditures in the Department for Aging and Disability Services were increased for an overall increase in the KanCare budget. The major contributor to the increase for FY 2016 KanCare statewide is the higher cost of capitated negotiated rates and estimated growth in population which takes into account recent processing delays and KanCare policy changes instituted in FY 2016. In order to mitigate the effect of the increased expenditures from the State General Fund for systemwide KanCare costs, KDHE fee fund revenue of \$18.9 million will be used in FY 2016. The Legislature approved this item in the amendment.

Governor's Budget Amendment No. 1 also clarifies a requirement passed by the 2015 Legislature to consolidate Kansas' information technology infrastructure and organizations during FY 2016. The amendment authorizes the Department of Administration to lapse certified savings from special revenue funds and transfer the savings to the State General Fund. For KDHE—Health, \$292,212 was the certified SGF savings amount. The Legislature adopted this item in the amendment.

The Legislature concurred with the Governor's FY 2017 recommendation of \$2.4 billion, including \$650.0 million from the State General Fund for the Divisions of Public Health and Health Care Finance with the exception of several items listed below: First, the Governor's recommendation to shift Children's Initiatives Fund (CIF) expenditures to the State General Fund, and move the Infants & Toddlers Program from KDHE to the Kansas State Department of Education was rejected by the Legislature. For more information regarding the status of the CIF, please see the CIF summary in the Budget Issues Section. Second, the KDHE budget was reduced to reflect a statewide reduction approved by the

Legislature that will suspend the KPERS Death and Disability payments during FY 2017.

Third, the Legislature added \$378,000 from the State General Fund for Primary Health Care Clinics, commonly known as Safety Net clinics, to provide services for additional patients. The Governor, however, eliminated the Safety Net Clinic increase as part of an allotment to reduce SGF expenditures.

In addition, the Legislature adopted Governor's Budget Amendment No. 1 that addressed the Human Services Consensus Caseload estimate for FY 2017. The amendment changed the budget to reflect changes in program participation and the cost of assistance programs based on the estimates. For the Department of Health, State General Fund expenditures were reduced by \$24.2 million and other funding sources increased by \$19.1 million for a total decrease of \$5.1 million. While KDHE KanCare expenditures were reduced, KanCare expenditures in the Department for Aging and Disability Services were increased for an overall increase in the KanCare budget. The major contributor to the increase for FY 2017 KanCare statewide is the higher cost of capitated negotiated rates and estimated growth in population which takes into account recent processing delays and KanCare policy changes instituted in FY 2016. In order to mitigate the effect of the increased expenditures from the State General Fund for systemwide KanCare costs, KDHE fee fund revenue of \$24.2 million will be used in FY 2017.

For KDHE-Health, the May 18 allotment reductions include: \$378,000 for Safety Net Clinics; \$330,000 for vaccine purchases; \$78,602 for the Inspector General position; and \$39.2 million in Medicaid reductions. The Medicaid reductions will reduce federal expenditures by \$49.8 million.

The Legislature passed SB 248 which prescribes the priority for expenditures and grants for family planning services financed with federal Title X funds. The bill specifies that KDHE is required to make any expenditure or grant first to public entities, including state, county, local health departments and health clinics and, second, if funds remain, to non-public entities that are hospitals or federally qualified health centers that provide comprehensive primary and preventive care in addition to family planning services. The bill codifies in statute a proviso which has been included in the appropriations bills since 2013.

House Substitute for SB 402 statutorily names the Kansas Hope, Opportunity, and Prosperity for Everyone (HOPE) Act and makes changes pertaining to eligibility for public assistance. During the 2015 Legislative Session, Senate Substitute for HB 2258 was enacted and later modified by 2015 Senate Substitute for HB 2281, and was referred to as the HOPE Act, although it was not statutorily named at that time. The bill also includes authorization for KDHE to institute the Step Therapy protocol which includes protections for patients on a drug therapy regimen that commenced prior to the effective date of the bill. The legislation also includes a 30-day trial limit on drug usage or drug therapy used for the treatment of multiple sclerosis; provides for a 72-hour expedited appeal process for a physician's override request; and requires KDHE to study, review, and report to the Legislature on the use of step therapy, including data on the savings produced by the program. As KDHE implements Step Therapy, all rules and regulations must be reviewed and approved by the Medicaid Drug Utilization Review Board. In addition, any policy or rule change regarding medications used to treat mental illness must be reviewed and approved by the Mental Health Medication Advisory Committee.

Department of Labor. The Legislature approved the Governor's budget amendment that provided clarifying language for the IT Savings Certification.

The IT Savings Certification transferred \$3.0 million from the Workmen's Compensation Fee Fund in FY 2016 and represents part of the overall FY 2016 IT Savings Certification from cabinet agencies for information technology projects that will no longer be needed. For FY 2017, the Legislature approved the special allotment authority in SB 161 and SB 249, which allowed \$12,483 to be lapsed from the State General Fund. The lapsed funding represents a 4.0 percent reduction in the Department of Labor's State General Fund appropriation for FY 2017.

Kansas Commission on Veterans Affairs Office. For FY 2016 the Governor recommended a budget of \$23.6 million from all funding sources, including \$6.4 million from the State General Fund. The 2016 Legislature increased expenditure authority from the agency's Federal Long Term Care Per Diem Fund by \$600,000. The fund is comprised of payments to the agency from the U.S. Department of Veterans Affairs; these payments are issued by the U.S. Department of Veterans Affairs for the long term care of qualifying veterans in a state home for veterans. The Governor recommended an expenditure authority of \$7.3 million from the fund. The 2016 Legislature increased expenditure authority to \$7.9 million which brought the agency's overall approved budget to \$24.2 million from all funding sources. The increase in expenditure authority was granted as a result of higher than anticipated costs at the state veterans' homes.

Education Summary

The Education function includes expenditures for state support of primary, secondary, and higher education. Agencies in this function are the Department of Education, including the Schools for the Deaf and Blind; the Board of Regents and institutions under its jurisdiction; the State Historical Society; and the State Library. Expenditures by the Department of Education include the payment of local school employer retirement contributions.

Total approved expenditures for education agencies in FY 2016 are \$7.3 billion from all funding sources, of which \$3.9 billion is from the State General Fund. For FY 2017, the Legislature approved expenditures totaling \$7.5 billion, including \$4.0 billion from the State General Fund.

How It Is Financed

FY 2017

Elementary & Secondary Education

Senate Substitute for HB 2655

The Legislature modified the Governor’s original recommendation for block grant funding for state aid payments to school districts by approving Senate Substitute for HB 2655. Specifically, the bill changes statutory formulas for providing Supplemental General State Aid and Capital Outlay State Aid for FY 2017; provides for School District Equalization State Aid; changes non-severability provisions to severability provisions; and amends law related to Ancillary School Facilities State Aid. The bill makes necessary appropriations for the school finance formula changes contained in the bill. The following outlines the main components of the legislation.

Supplemental General State Aid. The bill replaced the formula for Supplemental General State Aid provided by 2015 House Substitute for SB 7 with a new formula for determining the amount of Supplemental General State Aid that each district is entitled. Under the new formula, the amount is determined by multiplying the school district’s local option budget by an equalization factor. The equalization factor is determined by arranging the assessed valuation per pupil (AVPP) of all school districts from largest to smallest, rounding the AVPPs to the nearest \$1,000 and identifying the median. The equalization factor of the median is 25.0 percent. For every \$1,000 a school district’s AVPP is above the median, the school district’s equalization factor is reduced from 25.0 percent by 1.0 percent. For every \$1,000 a school district’s AVPP is below the median, the school district’s equalization factor is increased from 25.0 percent by 1.0 percent.

How It Is Spent

FY 2017

Prior to this change, \$450.5 million of the overall Block Grant appropriation for FY 2017 was attributed to Supplemental General State Aid. With the revisions contained in Senate Substitute for HB 2655, \$450.5 million was reduced from the block grant appropriation and a separate line-item appropriation was made in the amount of \$367.6 million for FY 2017.

Capital Outlay State Aid. The bill reinstated the Capital Outlay State Aid formula that was in effect prior to the enactment of 2015 House Substitute for SB 7. As a result of this change, \$27.3 million was reduced from the FY 2017 block grant appropriation

* Beginning in FY 2015, the previously locally distributed 20-mill property tax levy is remitted to and distributed by the state to school districts. For comparative information, amounts for the 20-mill local property tax have been included prior to FY 2015.

** The FY 2015 KPERs-School (USDs) expenditures in this table have been corrected from the version as published in "The FY 2017 Governor's Budget Report." The prior version inadvertently omitted expenditures from the Expanded Lottery Fund, as well as an incorrect SGF amount.

and a separate line-item appropriation was made in the amount of \$50.8 million for FY 2017.

State Aid to hold these districts "harmless." This appropriation came from the State General Fund.

Equalization State Aid. If the changes contained in Senate Substitute for HB 2655 would result in any school districts receiving less state aid than was entitled under the block grant for Supplemental General State Aid or Capital Outlay State Aid, the Legislature provided \$61.8 million in Equalization

Severability. Senate Substitute for HB 2665 changed the non-severability provision contained in 2015 House Substitute for SB 7 allowing the provisions of the Classroom Learning Assuring Student Success Act to be severed and for the provisions of the bill to be severed.

* Beginning in FY 2015, expenditures from all funding sources for General State Aid include the 20-mill property tax levy.

** KPERS-School expenditures beginning in FY 2016 reflect only aid to community colleges, and do not include amounts for USDs.

For FY 2016 and FY 2017, KPERS-School amounts for USDs are included in the Block Grant appropriation.

*** Prior to FY 2017, expenditures for the Children's Cabinet were reflected in the Department for Children & Families.

Ancillary School Facilities. Senate Substitute for HB 2665 amended statutes relating to the authority of school districts to levy taxes for the purpose of financing the costs incurred that are directly attributable to new school facilities. The bill allowed the levying of the tax for the operation of a school facility that was financed by the issuance of bonds approved at an election held on or before June 30, 2016.

Special Session—House Substitute for HB 2001

A special session of the Kansas Legislature occurs when the Legislature is called to convene a time outside the regular legislative session, usually to address a particular topic or emergency. A special

session may be called by the Governor or the Legislature may petition the Governor to call a special session. Governor Brownback called for a special session to convene on June 23, 2016 to address the Supreme Court opinion on school finance related to equity issues. The special session concluded on June 24, 2016. The Legislature enacted and the Governor signed House Substitute for HB 2001, which contained the following changes to school finance.

Supplemental General State Aid. The Legislature funded Supplemental General State Aid, also known as Local Option Budget (LOB) State Aid, under the formula that was in effect prior to the block grant, and is based upon amounts of assessed valuation per pupil (AVPP) at the 81.2 percentile of all districts' AVPP

ranked high to low. To fund LOB state aid at this higher level, the Legislature appropriated \$99.4 million from the State General Fund in FY 2017.

Equalization State Aid. To offset the additional funding required with the changes made to the LOB State Aid formula, the Legislature lapsed the funds it appropriated during the regular 2016 Legislative Session for Equalization State Aid in FY 2017, which totaled \$61.8 million, all from the State General Fund.

Virtual School Weighting Adjustments. The Legislature reduced funding from the block grant in FY 2017 by \$2.8 million from the State General Fund as a result of freezing the calculation of the virtual school weighting at \$5,000 per full-time student.

Extraordinary Needs State Aid. The Legislature reduced the amount of funding available for Extraordinary Needs State Aid by \$4.5 million to a total of \$13.0 million in FY 2017. Of this amount, \$5.0 million will be financed from a transfer from the Kansas Department of Transportation Highway Fund to the State General Fund. In addition, if sufficient funds are not available in the LOB State Aid or the Capital Outlay State Aid appropriations to fully fund districts entitlements during FY 2017, amounts in the Extraordinary Needs State Aid can be utilized for these purposes. However, the Legislature provided that if the proceeds from the sale of the Kansas Bioscience Authority are less than \$38.0 million, then the difference between the amount of the proceeds and \$38.0 million can be reduced from amounts available in the Extraordinary Needs State Aid and transferred to the State General Fund in FY 2017.

Temporary Assistance to Needy Families (TANF). The Legislature authorized the use of \$4.1 million from federal TANF funds for the Pre-K Pilot program, instead of financing the program from the Children's Initiative Fund. In addition, the Legislature transferred \$4.1 million from the Children's Initiative Fund to the State General Fund to help finance additional funds for LOB State Aid in FY 2017.

Other Budgetary Adjustments

Delay of FY 2016 KPERS-School Employer Contributions. The Legislature authorized the Department of Administration to delay expenditures attributed to the fourth quarter KPERS-School

Employer Contributions. The budgeted fourth quarter employer contributions totaled \$90.6 million from all funding sources, including \$79.2 million from the State General Fund block grant appropriation, \$4.8 million from the KPERS-School appropriation for non-USDs, and \$6.6 million from the ELARF KPERS-School employer contribution appropriation for non-USDs. The Legislature authorized these delayed payments to be made by the end of FY 2018, with an annualized interest rate of 8.0 percent.

Children's Cabinet. The Legislature did not concur with the Governor's recommendation to move the Children's Cabinet from the Department for Children and Families (DCF) to the Department of Education in FY 2016. As a result, expenditures totaling \$20.0 million from all funding sources, including \$19.0 million from the State General Fund were reduced from the original FY 2017 Governor's recommendations.

However, the Legislature authorized the Children's Cabinet to select an agency other than DCF to act as its fiscal agent for its programs in FY 2017. As a result, the Children's Cabinet chose the Department of Education as its fiscal agent beginning in FY 2017. Expenditures of \$45.8 million from all funding sources were added to account for this action.

The Legislature also made no line-item specific funding for Children's Initiative Fund programs. Instead, the Children's Cabinet was given the task of funding these education programs, and other children's programs from other state agencies from the block grant funding appropriated from the Children's Initiative Fund. SB 161 outlines the specific authority given to the Children's Cabinet and the Governor for the block grant funding and the budget mechanics of implementing the recommendations of the cabinet.

KS Reading Success Program. Because of program underspending in the current fiscal year, \$680,500 from the Children's Initiative Fund in FY 2016 was lapsed under the special allotment authority given to the Governor by the Legislature. This corresponding amount was transferred to the State General Fund under the same special allotment authority. After the reduction, \$1.4 million remained in FY 2016 for programs. In FY 2017, \$2.1 million was approved from the State General Fund for this program by the Legislature.

Postsecondary Education

For FY 2016 and FY 2017, the Legislature approved total expenditures of \$2.8 billion from all funding sources, including \$761.0 million from the State General Fund for the Regents postsecondary education system. The Board of Regents budget contains appropriations that will be distributed to the postsecondary educational institutions under its jurisdiction, which makes its budget fluctuate between FY 2016 and FY 2017. The approved budgets for the Regents system include allotment reductions for both FY 2016 and FY 2017, which were calculated from the total of State General Fund amounts less expenditures for debt service payments. The approved amount for FY 2017 also includes reductions totaling \$8.5 million, of which \$2.7 million is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund. In addition, the Legislature removed certain restrictions on tuition increases for Regents Institutions imposed by the 2015 Legislature for FY 2017. The table below shows the approved budget for each university and the Board of Regents for FY 2016 and FY 2017.

The Governor signed into law HB 2622 which amends fees charged to institutions governed by the Kansas Private and Out-of-State Postsecondary Educational Institution Act. The legislation changes the deadline that these institutions must submit application renewals; repeals statutes creating an advisory commission and those that prohibit institutions from

collecting tuition prior to instruction; and increases the maximum application fee for duplication or verification of a General Educational Development (GED) credential from \$15 to \$25. Additional provisions of HB 2622 require the State Board of Regents to publish degree prospectus information for each undergraduate degree program offered by each postsecondary educational institution that summarizes information and statistics on the degree program.

All state universities and Washburn University are required to comply with the provisions outlined in the bill beginning with the 2016-2017 school year. Compliance is required of community colleges, technical colleges and any entity resulting from the consolidation or affiliation of any two or more postsecondary educational institutions beginning with the 2017-2018 school year. Under HB 2622, the Board is required to adopt a policy requiring the state universities to award credit hours to any enrolled student who successfully passes an exam through the College Level Examination Program (CLEP) with a credit-granting recommended score as outlined by the American Council on Education. Last, the bill amends the Postsecondary Career Technical Education Performance-based Incentive Program so that Johnson County Community College is no longer excluded from eligibility.

The Board of Regents estimates the \$25 fee for duplication or verification of GED credentials will increase fee fund revenues by \$56,670 in FY 2017 and that the new fee structure proposed for private and out-

Total	\$ 760,974,565	\$ 2,769,112,697	\$ 760,967,631	\$ 2,794,030,988

of-state postsecondary educational institutions will help align revenues with the expenses, but will decrease revenues to the fee fund by 2.0 percent.

The Board indicates it has already programmed a site that aligns with the requirements outlined in this bill and the costs incurred have been absorbed within existing resources. In order to comply with the provisions of this bill, the Board indicates state universities, Washburn University, community colleges and technical colleges will incur additional expenses for other operating costs and IT system enhancements, but a precise estimate cannot be provided. And like the Board, it is assumed that postsecondary institutions will have to handle the costs within existing resources since no funding was added to cover the costs associated with the bill's enactment. The Board indicates the CLEP provisions could reduce tuition revenues as students take the exams and do not take courses, but a precise estimate of the reduction in those revenues cannot be determined.

The Legislature also enacted SB 358 which modifies the Nurse Educator Service Scholarship Program Act by expanding the pool of institutions eligible to receive the scholarship for those nursing students who agree to become a nurse educator. However, the Board estimates that existing appropriations should be sufficient to provide scholarship funding for the three additional private colleges that may qualify.

Finally, the Legislature passed HB 2567 which reinstated eligibility for resident tuition rates for certain military veterans and their families that was inadvertently eliminated in legislation enacted by the 2015 Legislature. The bill clarifies that any veteran or the spouse or dependent of a veteran is eligible for in-state tuition as long as the veteran was permanently stationed in Kansas during the veteran's service or established residency prior to service, and lived in Kansas at the time of enrollment. Further, the bill makes any person meeting this criteria eligible for reimbursement of the difference between any tuition and fees paid during the 2015-2016 school year and the amount of in-state tuition and fees that would have been paid had the provisions of this bill been in effect. The Board of Regents indicates state universities, Washburn University, community colleges and technical colleges will be required to absorb reimbursement costs within existing resources if one is required to reimburse the amount of non-resident

tuition paid by students during the 2015-2016 school year who would have been eligible for in-state tuition under these provisions.

Board of Regents. The Legislature approved expenditures of \$213.9 million for the Board of Regents, including \$197.9 million from the State General Fund for FY 2016. In November 2015, the Governor issued an allotment plan that reduced the Board of Regents' budget by \$1.4 million from the State General Fund, which represented unspent scholarship funding that reappropriated from the previous year. The allotment reductions were taken from nine separate programs listed in the following table.

State Scholarship Program	\$ 4,054
Ethnic Minority Scholarship	295,481
ROTC Scholarship	20,962
Military Service Scholarship	48,525
Teachers Scholarship	165,698
National Guard Scholarship	539,726
Career Technical Workforce Grant	263,944
Nursing Student Scholarship	32,880
Nursing Educator Grant	<u>33,677</u>
Total SGF Allotment	\$ 1,404,947

For FY 2017, the Legislature approved expenditures of \$238.6 million, including \$190.7 million from the State General Fund. As State General Fund revenues continued to come in below expected, the Governor issued another allotment, reducing the Board's State General Fund appropriation by 4.0 percent, or \$7.1 million, which excludes payments for debt service and the Governor's Excel in Career Technical Education Program. How the allotment was applied is listed in the following table.

Board Operations	\$ 183,306
Adult Basic Education	58,281
Community & Technical Colleges	5,410,694
Washburn University	476,037
Scholarships & Grants	<u>947,153</u>
Total SGF Allotment	\$ 7,075,471

Universities. Total approved expenditures for the universities in FY 2016 are \$2.6 billion, including \$563.1 million from the State General Fund. A detailed description of any major budget changes for FY 2016 is presented by university in the sections that follow. Because State General Fund revenues have been less than expected, reductions in state support for university operations which began in FY 2015 were maintained in FY 2016. The following table summarizes the allotment plan that reduced State General Fund appropriations by 3.0 percent from the universities for FY 2016. The percentage reduction was applied excluding State General Fund payments for debt service.

FY 2016 Universities State General Fund Allotment Plan	
University of Kansas	\$ 3,953,202
KU Medical Center	3,225,784
Kansas State University	3,071,297
KSU Vet. Med. Center	440,646
KSU ESARP	1,389,501
Wichita State University	2,228,257
Pittsburg State University	1,057,780
Emporia State University	921,984
Fort Hays State University	<u>992,367</u>
Total SGF Allotment	\$ 17,280,818

For FY 2017, the approved amounts are \$2.6 billion, including \$570.2 million from the State General Fund. A detailed description of any major budget changes for FY 2017 is presented by university in the sections that follow. The table in the next column summarizes the allotment plan that reduced State General Fund appropriations by 4.0 percent from the universities for FY 2017, which excluded payments for debt service. The Legislature directed allotments implemented in FY 2017 to be calculated as a uniform percentage from the total of all operating budget accounts of the State General Fund and special revenue funds of each state educational institution, which had the effect of cutting appropriations for the University of Kansas and Kansas State University by a greater percentage than the other universities.

Fort Hays State University. The final approved budget for FHSU totals \$151.7 million, including \$32.1 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$144.1 million, including \$32.8

million from the State General Fund. The FY 2017 budget includes a reduction of \$359,499, of which \$165,026 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

FY 2017 Universities State General Fund Allotment Plan		
	Percent of SGF	Allotment
University of Kansas	-4.99%	\$ 7,009,260
KU Medical Center	-3.32%	3,720,190
Kansas State University	-5.09%	5,219,623
KSU Veterinary Med. Center	-3.37%	509,103
KSU ESARP	-2.84%	1,348,010
Wichita State University	-3.82%	2,846,788
Pittsburg State University	-2.70%	1,020,815
Emporia State University	-3.13%	855,204
Fort Hays State University	-2.82%	<u>1,059,685</u>
Total SGF Allotment		\$ 23,588,678

Emporia State University. The final approved budget for ESU totals \$96.1 million, including \$29.8 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$112.2 million, including \$30.8 million from the State General Fund. The FY 2017 budget includes a reduction of \$325,559, of which \$166,449 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

Pittsburg State University. The final approved budget for PSU totals \$114.8 million, including \$34.4 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$111.0 million, including \$35.2 million from the State General Fund. The FY 2017 budget includes a reduction of \$318,733, of which \$164,322 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

Kansas State University. The final approved budget for KSU totals \$596.9 million, including \$99.3 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$582.9 million, including \$97.2 million from the State General Fund. The FY 2017 budget includes a reduction of \$1.9 million, of which \$476,094 is from

the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund. The Legislature deleted \$6.2 million from the operating expenditures account of the State General Fund to create a separate line item of appropriation for the KSU Salina, College of Technology beginning in FY 2017. With the enactment of SB 423, the KSU Salina, College of Technology was renamed the Kansas State University Polytechnic Campus. The \$6.2 million State General Fund reduction to the operating expenditures account was added back as a separate line item of appropriation for the Polytechnic Campus.

KSU Veterinary Medical Center. The final approved budget for the Veterinary Medical Center totals \$49.8 million, including \$14.2 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$47.2 million, including \$14.6 million from the State General Fund. The FY 2017 budget includes a reduction of \$197,650, of which \$63,018 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

KSU Extension Systems Agriculture Research Program. The final approved budget for the Extension Systems Agriculture Research Program totals \$132.6 million, including \$44.9 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$132.0 million, including \$46.1 million from the State General Fund. The FY 2017 budget includes a reduction of \$500,961, of which \$236,420 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund. The Legislature also authorized the Board of Regents, on behalf of Kansas State University, to sell and convey all the rights, title, and interest to a tract of land in Riley County, Kansas for FY 2017. All proceeds from the sale will be credited to the Restricted Fees Fund of KSU Extension Systems Agriculture Research Program.

University of Kansas. The final approved budget for KU totals \$740.4 million, including \$131.9 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$736.4 million, including \$133.4 million from the State General Fund. The FY 2017 budget includes a

reduction of \$2.7 million, of which \$700,169 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund. The Legislature also added \$100,000 from the State General Fund for the geological survey in both FY 2016 and FY 2017.

The Legislature enacted HB 2696, which created a \$1.25 Law Enforcement Training Center surcharge, to be paid with vehicle registration fees and credited to the Law Enforcement Training Center Fund. The additional funds will support the Kansas Law Enforcement Training Center, which is a unit of the University of Kansas Continuing Education. The Center was established by the Kansas Legislature in 1968 to train new police officers in basic training programs and also offers continuing education and specialized training to other Kansas officers. The Center's primary funding is from district and municipal court docket fees, which have been a historically consistent source of funding, but have been trending down by more than 20.0 percent in recent years. The University indicates the Center has implemented cost-saving measures to lessen the impact of declining docket fee revenues. However, the Center estimates that it will spend all of its reserve funds after it makes its required bond payments on June 1, 2016. The additional funding will allow the Center to fund building maintenance projects and maintain and enhance training programs.

Public Private Partnership. The KU Campus Development Corporation (KUCDC) is a Kansas nonprofit corporation and was established in 2015 by the University of Kansas (KU) in connection with the proposed development of the Central District Development Project. The project includes developing approximately 40 acres of land on the Lawrence Campus with an estimated capital budget of \$350.0 million, including \$138.0 million for a new Integrated Sciences Building; \$53.6 million for a 544-bed residence hall and dining facility; \$64.8 million for a 708-bed apartment-style residential living space; \$10.5 million for a Student Union; \$15.9 million for a new central utility plant to support the Central District facilities; \$46.7 million for infrastructure improvements; and \$20.5 million for additional parking facilities. It is expected that the project will generate approximately \$9.2 million in new net revenue annually from housing, parking and student fees.

To finance the project, the university secured bonds through a loan agreement between KUCDC and the Wisconsin Public Finance Authority. In the loan agreement, KU has leased the land to KUCDC and KUCDC will sublease the facilities to KU. KUCDC is responsible for payment on the bonds using the sublease payments made by KU.

Because KU used a public private partnership to secure the debt associated with this project rather than obtain the Legislature's approval, the Legislature added a proviso to the appropriations bill which impacts the University's FY 2017 budget. The proviso limits expenditures from special revenues funds to the total amount included in the Governor's budget recommendation. Excluded from this provision are grant funds, federal funds, the KU Medical Center and the Johnson County Education Research Triangle Fund of the University of Kansas. The Attorney General is required to certify the bonds to the Director of the Budget who must certify the expenditure limitation of each special revenue fund with the Office of the Chief Financial Officer.

University of Kansas Medical Center. The final approved budget for the KU Medical Center totals \$359.6 million, including \$104.3 million from the State General Fund for FY 2016. For FY 2017, the Legislature approved total expenditures of \$384.4 million, including \$108.5 million from the State General Fund. The FY 2017 budget includes a reduction of \$1.3 million, of which \$441,560 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

Wichita State University. The final approved budget for WSU totals \$313.4 million, including \$72.0 million from the State General Fund for FY 2016. For

FY 2017, the Legislature approved total expenditures of \$305.3 million, including \$71.7 million from the State General Fund. The FY 2017 budget includes a reduction of \$843,355, of which \$315,210 is from the State General Fund, for a statewide moratorium on contributions to the KPERS Death and Disability Fund.

Other Education Agencies

Historical Society. For FY 2017 the Governor recommended expenditures totaling \$7.8 million from all funding sources, including \$4.4 million from the State General Fund. The 2016 Legislature concurred with the Governor's recommendation; however, due to limits on the State General Fund, the agency received an allotment totaling \$174,513. Of this amount, a \$10,000 reduction was applied to capital improvements, a \$162,409 reduction was applied to general operating expenditures, and a \$2,104 reduction was applied to the Kansas Humanities Council. These adjustments resulted in approved expenditures for the Historical Society totaling \$7.6 million from all funding sources, including \$4.2 million from the State General Fund for FY 2017.

State Library. For FY 2017 the Governor recommended expenditures totaling \$6.5 million from all funding sources including \$4.0 million from the State General Fund. The 2016 Legislature concurred with the Governor's recommendation; however, due to limits on the State General Fund, the agency received an allotment totaling \$161,001. Of this amount, a \$55,248 reduction was applied to agency operating expenditures, a \$46,995 reduction was applied to aid to local libraries, a \$47,483 reduction was applied to interlibrary loan grants, and an \$11,275 reduction was applied to talking books services.

Public Safety Summary

Agencies of the Public Safety function protect Kansas citizens by managing the state correctional system, investigating crimes, regulating emergency services, enforcing fire regulations, serving the public in emergencies, and enforcing state laws. Included in this function are the Department of Corrections and eight adult correctional facilities, the Juvenile Justice Authority (now a Division within the Department of Corrections) and two juvenile correctional facilities, the Adjutant General, the Emergency Medical Services Board, the State Fire Marshal, the Highway Patrol, the Kansas Bureau of Investigation, the Sentencing Commission, and the Kansas Commission on Peace Officers Standards and Training.

For FY 2016, the Governor’s recommendation was \$569.3 million from all funding sources for this function, including \$392.3 million from the State General Fund. The Legislature approved a budget totaling \$566.4 million from all funding sources, including \$386.2 million from the State General Fund for FY 2016, which includes caseload adjustments for the Department of Corrections that were contained in the Governor’s Budget Amendment No. 1 and in an allotment that was enacted in June 2016.

How It Is Financed

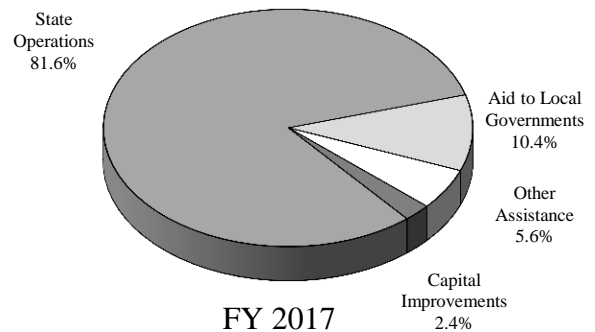

FY 2017

The Governor recommended a budget of \$570.1 million from all funding sources, including \$397.0 million from the State General Fund for FY 2017. For FY 2017, including caseload adjustments for the Department of Corrections contained in the Governor’s Budget Amendment No. 1, the Legislature approved an all funds budget of \$572.1 million, including \$398.7 million from the State General Fund.

Adult & Juvenile Corrections

A total FY 2016 revised budget of \$384.1 million from all funding sources, including \$346.9 million from the State General Fund was recommended by the Governor. The Governor’s recommendation includes a decrease to caseload expenditures of \$2.9 million from the State General Fund because of special allotment authority granted to the Governor and an increase in federal fund expenditures to offset the State General Fund expenditure decrease. For FY 2017, the Legislature approved a revised budget of \$392.2 million from all funding sources, including \$360.9 million from the State General Fund. The FY 2017 approved budget contains global statewide reductions.

How It Is Spent

FY 2017

Food Services Contract. The Legislature approved the Governor’s recommendation to add expenditures of \$625,615 in FY 2016 and \$447,350 in FY 2017 to make up for a shortfall in the food services contract. The funding will be transferred to the agency from the Correctional Industries Fund.

Caseload Adjustments. In FY 2016, the Legislature adopted the Governor’s Budget Amendment No. 1 for caseload savings of \$3.2 million from the State General Fund and \$3.0 million from all funds. For FY 2017, the Governor recommended caseload savings of \$781,000 from the State General Fund and \$694,000 from all funds. The Legislature approved adding \$806,000 from all funds, including \$319,000 from the State General Fund for psychiatric residential treatment facilities; however, the Legislature did not approve caseload savings of \$1.5

million from all funds, including \$1.1 million from the State General Fund for out-of-home placements.

Because of special allotment authority granted to the Governor in House Substitute for SB 161, State General Fund caseload expenditures were reduced by \$2.9 million in FY 2016; however, the agency received additional federal funding and all funds expenditures were increased by the same amount to offset the State General Fund reduction.

Correctional Officer Pay Increase. The Legislature authorized expenditures of \$2.4 million from the State General Fund for FY 2017 for a 2.5 percent pay increase for adult and juvenile correctional officers.

Evidence-Based Juvenile Programs. Expenditures of \$2.0 million were appropriated by the Legislature for evidence-based juvenile programs for FY 2017. To pay for the additional funding, the Legislature reduced \$2.0 million from State General Fund caseload expenditures. The funds are provided to implement community-based programs and further reduce the placement of juveniles in group homes.

Program Credits. The Legislature passed and the Governor signed HB 2447, which increases the maximum number of days an inmate's sentence may be shortened for earning program credits from 90 days to 120 days.

Juvenile Justice Reform. The Legislature passed and the Governor signed SB 367, which makes changes to juvenile justice policy. The legislation establishes the following overall case length limits for juvenile offenders to remain under the jurisdiction of the court: For misdemeanors, up to 12 months; for low-risk and moderate-risk offenders adjudicated for a felony, up to 15 months; and for high-risk offenders adjudicated for a felony, up to 18 months. There is no overall case length limit for a juvenile adjudicated for a felony that would constitute an off-grid felony or nondrug severity level one through four felony, if committed by an adult.

SB 367 establishes the Kansas Juvenile Justice Oversight Committee, which is comprised of 19 members. The Committee will perform various duties, including guiding and evaluating the implementation of the changes in law concerning juvenile justice reform; ensuring system integration and accountability; and continuing to review any additional topics

related to the continued improvement of the juvenile justice system.

The legislation established the Kansas Juvenile Justice Improvement Fund. Expenditures from the fund will be for the development and implementation of evidence-based community programs and practices for juvenile offenders and their families by community supervision officers, including juvenile intake and assessment, court services, and community corrections.

Other Public Safety Agencies

Adjutant General. The Governor recommended and the Legislature approved \$340,000 from the State General Fund in FY 2016 for security enhancements at the agency's recruiting offices and armories. The Legislature endorsed the Governor's recommendation of \$30,000 from the State General Fund in both FY 2016 and FY 2017 for additional bandwidth at the Kansas Intelligence Fusion Center (KIFC). In addition, the Legislature approved the Governor's FY 2017 recommendations of \$15,000 for KIFC analyst training and \$20,000 for KIFC hardware and software upgrades. Funding for both recommendations will come from the State General Fund.

For FY 2016, the Legislature approved a total revised budget of \$49.7 million from all funding sources, including \$9.7 million from the State General Fund. Revised expenditures of \$45.0 million from all funding sources, including \$7.2 million from the State General Fund were authorized by the Legislature for FY 2017. The approved budget for FY 2017 includes a global statewide reduction.

Emergency Medical Services Board. The Legislature passed and the Governor signed SB 225, which enacted the Interstate Compact for Recognition of Emergency Medical Personnel Licensure. For the agency to join the Compact, the Legislature added expenditures of \$40,000 in FY 2016 and \$30,000 in FY 2017 from agency fee funds. From all funding sources, the Legislature authorized revised expenditures of \$2.1 million in both FY 2016 and FY 2017. A global statewide reduction is included in the FY 2017 approved budget.

State Fire Marshal. The Legislature endorsed the Governor's recommendation to add \$200,000 from

the Fire Marshal Fee Fund in FY 2017 to provide grants to local fire departments for safety equipment and firefighter physicals. Total revised expenditures of \$5.6 million in FY 2016 and \$5.9 million in FY 2017 from all funding sources were approved by the Legislature. Included in the FY 2017 approved budget is a global statewide reduction.

Highway Patrol. The Legislature passed and the Governor signed HB 2696, which increased vehicle registration fees by \$3.25. Of that amount, \$2.00 will be deposited into the Kansas Highway Patrol Staffing and Training Fund, which the bill established. The funding will be used by the agency to hire additional troopers beginning in FY 2017. From all funding sources, revised expenditures of \$81.3 million were approved for FY 2016 and \$82.8 million for FY 2017. The Highway Patrol FY 2017 approved budget contains a global statewide reduction.

Kansas Bureau of Investigation. For FY 2016, the Legislature authorized the use of existing funds of up to \$340,000 for the repair of the Topeka headquarters parking garage. The Legislature approved the use of

existing funds to allow the agency to implement a new pay plan beginning in FY 2017.

The Legislature concurred with the Governor's recommendation for FY 2016 and approved revised expenditures of \$35.1 million from all funding sources, including \$22.8 million from the State General Fund. For FY 2017, the Legislature authorized revised expenditures of \$35.8 million from all funding sources, including \$23.1 million from the State General Fund. The Legislature authorized a global statewide reduction to the agency's FY 2017 approved budget.

Kansas Sentencing Commission. For FY 2016, the Governor recommended and the Legislature approved total expenditures of \$7.6 million, including \$7.4 million from the State General Fund. For FY 2017, the Legislature approved total expenditures of \$7.5 million, including \$7.4 million from the State General Fund which is below the Governor's recommendation by \$4,337, including \$4,052 from the State General Fund for reduced payments to the KPERS Death and Disability Fund.

Agriculture & Natural Resources Summary

The Agriculture and Natural Resources agencies promote, protect, and restore natural resources in Kansas. This includes agricultural product regulation and inspection; public health maintenance through the control of animal infectious diseases; the promotion of agriculture; conservation of soil and water resources through the Department of Agriculture; regulation of confined animal feedlot operations and landfills as well as the management of municipal water supply and water treatment projects by the Department of Health and Environment; maintenance of state parks and wildlife areas and the promotion of tourism through the Department of Wildlife, Parks and Tourism; policy decision-making regarding water resources by the Kansas Water Office; and promotion of Kansas products by the Kansas State Fair.

How It Is Financed

FY 2017

The 2016 Legislature concurred with the Governor's FY 2016 recommendations for agriculture and natural resources agencies, approving total funding of \$192.4 million, including \$15.2 million from the State General Fund, \$16.2 million from the State Water Plan Fund (SWPF) and \$5.8 million from the Economic Development Initiatives Fund (EDIF).

For FY 2017, the Legislature approved total funding of \$190.7 million, including \$15.5 million from the State General Fund, \$13.1 million from the SWPF and \$6.0 million from the EDIF. The approved amounts reflect statewide global reductions to the Kansas Public Employees Retirement System (KPERs) Death and Disability Fund employer contribution rate. In addition, the budget bill, House Substitute for SB161, gave the Governor enhanced allotment authority in FY

2017 if the State General Fund ending balance is projected to fall below \$100.0 million. The allotments made for Agriculture and Natural Resources agencies total \$823,412 from the State General Fund and \$206,080 from the EDIF.

How It Is Spent

FY 2017

Department of Agriculture. The Legislature concurred with the Governor's recommendation of \$47.2 million, including \$8.9 million from the State General Fund, \$10.4 million from the State Water Plan Fund, and \$561,160 from the EDIF for FY 2016.

The total approved budget for the Department of Agriculture in FY 2017 includes expenditures of \$43.6 million, including \$9.5 million from the State General Fund, \$8.2 million from the State Water Plan Fund, and \$1.1 million from the EDIF. The approved amounts reflect the KPERs contribution reductions.

The statute that made the Board of Veterinary Examiners part of the Department of Agriculture during FY 2015 and FY 2016 will sunset at the end of FY 2016, and the Board will become an independent agency with its own budget once again. The Department of Agriculture's approved budget reflects a reduction of \$292,251, the amount the agency had budgeted for operations of the Board of Veterinary Examiners. The approved budget also reflects the Governor's allotment of \$395,775 from the State General Fund.

The Legislature also passed a number of pieces of the legislation that affect the Department. Through FY 2016, funding from the State Water Plan Fund for the

Conservation Reserve Enhancement Program (CREP) was authorized by a lengthy proviso in the annual appropriation bill. SB 330 established CREP in state statute. The agency plans to request funding for the program in the revised FY 2017 budget.

House Substitute for SB 337 made a number of changes regarding requirements for notification of groundwater boards of directors of proposed rules and regulations that would change local groundwater management programs or affect water use in a groundwater management district. The bill also specifies under what circumstances the Division of Water Resources must notify water right owners of water right pending requests or applications. SB 314 extended the sunset date for the Local Food and Farm Task Force through FY 2017.

KDHE—Division of Environment. The Legislature concurred with the Governor's recommendation for the Division of \$59.7 million, including \$4.4 million from the State General Fund and \$1.9 million from the State Water Plan Fund for FY 2016. For FY 2017, the Legislature approved expenditures of \$60.8 million, with \$4.3 million from the State General Fund and \$1.8 million from the State Water Plan Fund. The approved expenditures for FY 2017 reflect statewide global reductions to the KPERS Death and Disability Fund employer contribution rate, as well as a State General Fund allotment of \$177,637 made by the Governor. The Legislature also passed the following legislation that affects the Department.

SB 227 establishes the Contaminated Property Redevelopment Act that will allow a purchaser of real property acquired after July 1, 2016, to be released from environmental liability for a pre-existing contamination. The bill also creates a redevelopment program for municipalities, and a new fund, the Contaminated Property Redevelopment Fund which will be administered by the Kansas Department of Health and Environment, Division of Environment.

SB 318 repeals the Kansas Electric Transmission Authority Act statutes that established the Kansas Electric Transmission Authority. In addition, the bill suspends all state agency activities, studies, and investigations being implemented in preparation of an initial submittal, or a final state plan as requested by the U.S. Environmental Protection Agency known as the Clean Power Plan. The suspension of state agency activities, that includes the Division of Environment,

will continue until the stay on the implementation of the Clean Power Plan is lifted. The U.S. Supreme Court issued a stay on the implementation of the Plan on February 9, 2016.

Kansas State Fair. The Legislature approved the Governor's recommendation of \$6.4 million from all funding sources, including \$845,950 from the State General Fund, for FY 2016. For FY 2017, the Legislature approved expenditures of \$6.8 million from all funding sources, including \$848,550 from the State General Fund. The State General Fund amounts are used for debt service principal and interest payments on bonds issued for capital improvement projects. The approved expenditures for FY 2017 reflect statewide global reductions to the KPERS Death and Disability Fund employer contribution rate.

Kansas Water Office. The Legislature concurred with the Governor's recommendation of \$9.0 million, with \$1.1 million from the State General Fund and \$2.4 million from the State Water Plan Fund, for the Water Office in FY 2016. The total approved budget for FY 2017 is \$9.0 million, with \$904,576 from the State General Fund and \$2.1 million from the State Water Plan Fund. The approved expenditures reflect statewide global reductions to the KPERS Death and Disability Fund employer contribution rate, as well as the Governor's State General Fund allotment of \$250,000.

For bond payments on the John Redmond Reservoir Dredging Project, the amounts of \$1.5 million in FY 2016 and nearly \$1.0 million in FY 2017 were allocated to the agency from the State Water Plan Fund. These amounts do not show up as expenditures in the agency's budget as they are transferred out to the State General Fund. The Department of Administration then makes the bond payments for the project.

Department of Wildlife, Parks & Tourism. For FY 2016, the Legislature concurred with the Governor's recommendation for a total approved budget of \$70.1 million, with \$5.2 million from the Economic Development Initiatives Fund. For FY 2017, the Legislature approved expenditures of \$70.4 million, with \$4.9 million from the Economic Development Initiatives Fund. The FY 2017 EDIF total includes an allotment amount of \$206,080. The approved amounts for all funds in FY 2017 reflect legislative reductions enacted statewide to the KPERS Death and Disability Fund.

Transportation Summary

The Kansas Department of Transportation (KDOT) budget makes up nearly all of the expenditures for the Transportation function. The expenditures are dedicated to all modes of transportation infrastructure including aviation, waterways, railroads, public transportation, as well as maintaining the state’s 10,000-mile highway system. KDOT also provides assistance to local governments through project development, design, planning, and financial assistance to improve the quality and safety of local streets, roads, and bridges.

How It Is Financed

FY 2017

The only other agency in the Transportation function is the Department of Administration. The Department is responsible for State General Fund debt service payments related to Comprehensive Transportation Program bonds.

No changes were made by the Legislature to the Governor’s FY 2016 recommendation of \$1.1 billion from all funds, including \$758.1 million from the State Highway Fund and \$10.4 million from the State General Fund.

For FY 2017, \$1.4 billion from all funds was approved by the Legislature, including \$985.2 million from the State Highway Fund and \$10.4 million from the State General Fund. The approved budget includes a total reduction of \$295.2 million from the original recommendation made by the Governor in January.

The total reduction includes a reduction to the Governor’s recommendation of \$294.5 million in State

Highway Fund construction costs as a result of delaying 14 modernization and expansion projects in FY 2017. The project delays, which were announced April 20, 2016, were needed because of an additional transfer of \$115.0 million from the State Highway Fund to the State General Fund. The transfer was included in several budget options presented by the Budget Director as a result of lower State General Fund revenue estimates.

The FY 2017 total reduction also includes legislative actions to the KDOT budget that (1) reduced 683,976 from the State Highway Fund for the KPERs Death and Disability moratorium; and (2) added \$89,300 from the State Highway Fund to fund expenditures related to highway signage programs.

How It Is Spent

FY 2017

Department of Transportation

T-WORKS. The table below highlights the final approved construction costs for the T-WORKS Program in FY 2016 and FY 2017. Regular Maintenance activities are designed to preserve, repair and restore the roadway system to accepted standards. Preservation projects protect the public’s investment in the state highway system by undertaking improvements that preserve the original condition for as long as possible. Modernization projects improve the safety and service of the existing system. Expansion/Enhancement projects include additions to the state highway system or projects which substantially improve safety, relieve traffic congestion, and improve access.

As noted below, FY 2017 construction costs were reduced by \$294.5 million as a result of an additional transfer of \$115.0 million from the State Highway Fund to the State General Fund that will occur under the special allotment authority in 2016 House Sub. for SB 161. Of this amount, \$187.9 million was from Modernization projects and \$106.6 million was from Expansion projects. The previously-programmed projects will be delayed until sufficient State Highway Fund resources become available.

T-WORKS		
Construction & Maintenance Costs		
<i>(Dollars in Thousands)</i>		
	FY 2016	FY 2017
Regular Maintenance	\$ 129,771,072	\$ 134,038,150
Preservation*	242,740,880	463,493,019
Modernization*	52,102,451	10,122,000
Expansion/Enhancement*	268,132,044	11,700,000
Total	\$ 692,746,447	\$ 619,353,169

* Amounts shown include bond funded projects. Bond funded projects are excluded from the recommended budget to prevent double counting of expenditures when principal payments are made.

The table at the end of this section shows the agency’s projected resources and expenditures from a cash flow perspective.

Transfers. At the beginning of FY 2016, the total amount of approved transfers out of the State Highway Fund was \$377.6 million. The final approved budget for FY 2016 includes additional transfers of \$148.6 million, for a total of \$525.6 million. Of the additional transfers, \$58.6 million was included in the Governor’s recommendation in January. The remaining \$90.0 million was part of budget adjustments announced in April and June.

The additional transfers in FY 2016 included \$8.0 million transferred in July 2015 under the authority of 2015 HB 2135; \$47.9 million transferred in November 2015 under 2015 HB 2135; \$2.1 million transferred as part of House Sub. for SB 161; \$637,950 transferred to the Department of Administration in April 2016 from IT savings; and \$90.0 million transferred using the special allotment authority in House Sub. for SB 161.

Transfers from the State Highway Fund originally totaled \$375.1 million in last year’s FY 2017 approved budget. This year’s Governor’s recommendation added an additional transfer of \$25.0 million, which

was adopted by the Legislature. Because of lower State General Fund revenue estimates, another transfer of \$115.0 million will be needed in FY 2017. During the 2016 Special Session, the Legislature approved a transfer of \$5.0 million. Altogether, \$520.1 million will be transferred out of the State Highway Fund in FY 2017.

Bonding. Last year’s approved FY 2016 budget included an estimate of \$250.0 million in bonding that would be needed to fund T-WORKS projects. The estimate increased to \$300.0 million in KDOT’s revised FY 2016 budget. However, in order to take advantage of favorable financial conditions, the agency ultimately issued \$400.0 million in bonds in FY 2016 (Series 2015B).

KDOT is subject to a debt service limit that ensures the amount owed in debt service in any given year cannot exceed a certain percentage of expected State Highway Fund revenues. Originally, the cap was set at 18.0 percent; however, the 2015 Legislature suspended it for FY 2016 and FY 2017. The cap was reinstated by the 2016 Legislature and set at 19.0 percent.

Legislation. Three notable bills that were passed by the Legislature and signed by the Governor are House Sub. for SB 245, SB 373 and HB 2610.

House Sub. for SB 245 enacts the Kyle Thornburg and Kylie Jobe Believe Act and would require the Secretary of Transportation to establish and implement a DUI memorial signage program for highways (excluding city-connecting links). The Legislature increased KDOT’s expenditure limitation for its operations account by \$70,000 from the State Highway Fund to absorb the costs of the bill. Those costs include \$40,000 for signs, \$20,000 to design and copyright a logo for the program and \$10,000 for staff support.

SB 373 authorizes the Kansas Turnpike Authority (KTA) to provide a notice of toll-evasion violation to a registered vehicle owner who drives on any turnpike project but does not pay a toll. If after three attempts by KTA to notify the registered vehicle owner, the KTA would be authorized to instruct the Department of Revenue Division of Vehicles to either require payment of any outstanding tolls, penalties, fees or costs at the time of registration or renewal of registration at the country treasurer; or refuse to renew

the registration of a vehicle only if the outstanding amount of any tolls, penalties, fees, or costs due exceeds \$100.

It is likely that SB 373 will create costs for the Department of Revenue and counties. However, the KTA will reimburse the Department and counties or create a cost recovery mechanism for those expenditures. The bill has the potential to result in reduced or delayed revenues from vehicle registration fees to the State Highway Fund. However, no information is available to reliably estimate the fiscal effect on the State Highway Fund.

HB 2610 designates the Chief Warrant Officer 4 David Carter Fallen Veterans Memorial Interchange; the John Troy, Pete Hughes and Earl Seifert Highway;

the Captain Chris Norgren Memorial Interchange; and the SGT Lavern W Tegtmeier Memorial Highway. KDOT is required to place signs along the highways to indicate the designations. The Legislature increased KDOT's expenditure limitation for its operations account by \$19,300 from the State Highway Fund to absorb the costs of the bill.

Relocate Concordia Subarea. The Legislature upheld the Governor's recommendation to provide \$2.0 million from the State Highway Fund to construct a new building that will provide consolidated operations for the Concordia subarea. The size and location of the current Concordia subarea building is no longer adequate to conduct maintenance activities, store materials and equipment, and for vehicles to safely enter and exit the facility.

Debt Service

Debt Service

The Legislature's approved budget includes final debt service estimates for FY 2016, and FY 2017 which are reflected in the schedule following this section. Altogether, a total of \$87.1 million in FY 2016 and \$124.4 million in FY 2017 will be spent from the State General Fund on debt service related to bonds.

New Issuances. New Kansas Development Finance Authority bond issuances for the state that occurred in FY 2016 include Series 2015H for the KPERS Pension Obligation Bonds; Series 2015K and Series 2015M to refund existing debt service for Pittsburg State University; Series SRF-1 for ongoing water projects financed through a revolving fund from the Kansas Department of Health and Environment; Series 2016A for Kansas State University to finance upgrades to Seaton Hall, renovations to the Student Union and refund existing bonds; Series 2016B for Fort Hays State University to add new student housing, raze Wiest Hall and refund existing debt service; and Series 2016C for the University of Kansas Medical Center to construct a parking garage.

Ratings. On May 3, 2016, Moody's affirmed the state's issuer rating of "Aa2" but revised the outlook to "negative." Previously, the outlook was "stable." While Moody's cited Kansas' low unemployment, diverse economy and budget flexibility as strengths, the organization also pointed to the state's ongoing budget challenges.

On April 25, 2016, Standard & Poor's (S&P) placed Kansas' AA issuer rating on a 90 day negative credit watch pending S&P's assessment of budget actions taken by the Legislature and the Governor.

Debt Service Limitations. The 2016 Legislature placed a cap on debt service in FY 2017 that is financed from the State General Fund. The maximum annual State General Fund debt service in FY 2017 may not exceed 4.0 percent of the average of State General Fund revenues for the previous three years.

The amount of the cap for FY 2017 will be determined by the Division of the Budget and Kansas Legislative Research Department.

Project Adjustments or New Debt

Following are brief descriptions of significant changes to current debt service or approval of new debt authorized by the Legislature.

University of Kansas

No changes were made by the Legislature to the University's debt service for FY 2016 or FY 2017. However, the Legislature did add a provision that effectively limits expenditures from KU's special revenues funds to the total amount included in the Governor's budget recommendation based on bonds issued after July 1, 2015, where a not-for-profit entity was formed in conjunction with the University using an out-of-state development authority. The provision excludes grant funds, federal funds, the KU Medical Center and the University's Johnson County Education Research Triangle Fund. The Attorney General is required to certify any such bonds to the Director of the Budget who must certify the expenditure limitation of each special revenue fund with the Division of Accounts and Reports and transmit a copy of the certification to the Director of Kansas Legislative Research.

Wichita State University

The Legislature added language to the omnibus bill allowing bonding authority of \$7.2 million in FY 2016 or FY 2017 to construct a parking garage for the University's Innovation Campus.

Capital Budget

Capital Budget Summary

For FY 2016, the Legislature approved the Governor’s capital improvement recommendations of \$851.8 million from all funding sources, including \$21.5 million from the State General Fund; \$133.6 million from special revenue funds; \$510.1 million from the State Highway Fund; \$84.3 million from the three building funds; and \$102.4 million from other funds.

The Governor’s original capital budget recommendation was \$1.4 billion from all funding sources, including \$21.3 million from the State General Fund. Because of special allotment authority granted to the Governor in House Substitute for SB 161, capital expenditures were reduced by a total of \$294.8 million from the State Highway Fund and \$310,000 from the State General Fund. A revised total capital budget of \$1.1 billion from all funding sources, including \$21.0 million from the State General Fund and \$53.6 million from all three building funds for FY 2017 was recommended by the Governor and approved by the Legislature. In addition, the Governor’s recommendation for capital improvements includes \$731.0 million from the State Highway Fund; \$134.5 million from special revenue funds; and \$130.5 million from other funds.

Consistent with the information shown in *The FY 2017 Governor’s Budget Report*, a pie chart of the approved FY 2017 budget by project classification is shown on the left. The pie charts on the right represent two views of how the capital budget is financed. The pie chart above illustrates the approved capital budget by source of financing and the pie chart below presents FY 2017 expenditures based on the funding method. The table on the next page compares the Governor’s recommendations for the three building funds and the expenditures approved by the Legislature for FY 2016 and FY 2017.

The Legislature concurred with the Governor’s recommendation of \$2.0 million from the State Highway Fund to relocate the Kansas Department of Transportation’s Concordia subarea. The location and size of the current subarea is no longer adequate to conduct agency operations, including maintenance activities and material storage.

Project Adjustments

The following is a brief description of significant changes that were made to the Governor’s recommendations on capital improvement projects because of allotments enacted in May 2016.

General Government

Department of Administration

Capitol Complex Maintenance. Expenditures of \$1.8 million in FY 2016 and \$2.0 million in FY 2017 were recommended by the Governor from the State General Fund for ongoing maintenance of the Capitol Complex. These amounts were approved by the Legislature. However, reductions announced on May 18, 2016 under the special allotment authority in House Sub. for SB 161 will reduce the FY 2017 amount to \$1.7 million.

Historical Society uses State General Fund money for capital improvement expenses related to general rehabilitation and repair projects at the various historic sites. The Legislature did not make any changes to the Governor's recommendation. However, due to limits on the State General Fund, the Historical Society received an allotment of \$10,000 that was applied to agency capital improvements. This resulted in approved expenditures totaling \$583,500 from all funding sources, including \$240,000 from the State General Fund for capital improvement projects in FY 2017.

Education

Historical Society

Rehabilitation & Repair. For FY 2017 the Governor recommended total expenditures of \$593,500 from all funding sources, including \$250,000 from the State General Fund for capital improvements. The

Transportation

Department of Transportation

Construction Contracts. This project category captures the expenditures needed to undertake highway construction contracts for the Kansas Department of Transportation modernization and expansion projects. Modernization projects are designed to bring roadways up to current standards.

Expenditures	\$ 7,608,066	\$ 7,608,066	\$ 4,992,000	\$ 4,992,000

Expansion projects improve safety, relieve congestion, and enhance economic development. The Kansas Department of Transportation announced on April 20, 2016 that it will be required to delay 14 projects in FY 2017 because of additional transfers from the State Highway Fund to the State General Fund that will occur in FY 2017 under the special allotment authority in House Sub. for SB 161. This will reduce State Highway Fund construction expenditures in FY 2017 from \$316.4 million to \$21.8 million, or by \$294.6 million.

Construction Operations. Capital improvement expenditures related to securing right-of-way and utility adjustments are included in this category. Also included are operating costs that directly support construction operations including the salaries and

wages of construction and construction inspection personnel. The KPERS Death and Disability moratorium enacted by the Legislature will reduce construction operations costs from \$97.3 million to \$97.0 million in FY 2017. Of the total amount, \$96.1 million is from the State Highway Fund and \$900,000 is from federal funds.

Relocate Concordia Subarea. The Legislature upheld the Governor's recommendation to provide \$2.0 million from the State Highway Fund to construct a new building that will provide consolidated operations for the Concordia subarea. The size and location of the current Concordia subarea building is no longer adequate to conduct maintenance activities, store materials and equipment, and for vehicles to safely enter and exit the facility.

Schedules

Schedules 1.1—6.2—Summary of Expenditures present expenditures first by Category of Expenditure, then by Fund, as follows:

	<u>All Funding Sources</u>	<u>State General Fund</u>
Expenditure Summaries	1.1	1.2
Total Expenditures by Agency	2.1	2.2
State Operations	3.1	3.2
Aid to Local Governments	4.1	4.2
Other Assistance, Grants, and Benefits	5.1	5.2
Capital Improvements	6.1	6.2

In each case, a “1” after the decimal point (as in 1.1) indicates funding from all funding sources (State General Fund plus special revenue funds) and a “2” (as in 1.2) indicates State General Fund only. In only one category, “Total Expenditures by Agency,” are there schedules beyond “2.” In this category, there are 2.3 for the Children’s Initiatives Fund, 2.4 for the EDIF, 2.5 for the State Water Plan Fund, and 2.6 for the Expanded Lottery Act Revenues Fund.
